Bad Faith And Antiracism:

Bad Faith and Antiracism Lewis R. Gordon, 1999 Lewis Gordon presents the first detailed existential phenomenological investigation of antiracism as a form of Sartrean bad faith. Bad faith is the attitude in which human beings attempt to evade freedom and responsibility is treated as a constant possibility of human existence. Antiracism is the attitude and practice that involve the construction of black people as fundamentally inferior and subhuman is examined as an effort to evade the responsibilities of a human and humane world. Gordon argues that the concept of bad faith militates against any human science that is built upon a theory of human nature and as such offers an analysis of antiracism that stands as a challenge to our ordinary assumptions of what it means to be human. **Bad Faith and Antiracism**

Lewis Ricardo Gordon, 1999 **Bad Faith and Antiracism** Lewis R. Gordon, 2025-10-30 This is the 30th Anniversary Edition of Lewis R. Gordon's classic existential phenomenological inaugural work *Bad Faith and Antiracism*. Gordon argues that antiracism is an effort to evade the responsibilities of building a human and humane world. He explores how bad faith is manifested across race, gender, and class among varieties of other human phenomena. The new edition contains a foreword by Maboko P. More and afterwords by Jacqueline M. Martinez and Paget Henry. *BAD FAITH and ANTIRACISM* 2 GORDON/GILROY, 2021

Black Existentialism and Decolonizing Knowledge Lewis R. Gordon, 2023-07-13 *Black Existentialism and Decolonizing Knowledge* collects key philosophical writings of Lewis R. Gordon, a globally renowned scholar whose writings cover liberation struggles across the globe and make field-defining contributions to the philosophy of existence, philosophy of race, Africana philosophy, philosophy of human sciences, aesthetics, and decolonization. Gordon's expansive output ranges across phenomenology, anti-Blackness, activist thinkers, sexuality, Fanon, Jimi Hendrix, Black Jewish struggles, critical pedagogy, psychoanalysis, and Ubuntu philosophy. Edited by Rozana Maart and Sayan Dey, two decolonial thinkers from South Africa and India, this reader shifts attention away from colonial centres of power, encouraging global dialogue across students, scholars, and activists. Featuring a foreword by the celebrated novelist and postcolonial thinker Ngũgĩ wa Thiong'o, this reader includes a mixture of research articles, short critical essays, reflections, interviews, poems, and photographs in the creative pursuit of liberation. **Phenomenology** Dermot Moran, Lester E. Embree, 2004 This set

reprints the essential scholarship published in the field. It includes a general introduction by the editors as well as individual volume introductions exploring and contextualising the main themes of the comprehensively covered tradition. This is a key point of reference for anyone researching the phenomenological tradition. **Decolonizing Existentialism and Phenomenology** Jina Fast, 2023-11-15 *Decolonizing Existentialism and Phenomenology* analyzes the history of decolonial, existentialist, and phenomenological theory in the work of figures such as Simone de Beauvoir, Richard Wright, Franz Fanon, Lewis Gordon, Audre Lorde, Sylvia Wynter, and Jamaica Kincaid in order to reimagine and rewrite the philosophical canon. Phenomenology and existentialism study the structures of consciousness as experienced from the perspective of the subject.

yet their methods have been markedly tied to the subjective lived experiences and perspectives of White Europeans and Americans By centering the experiences of peoples of the African diaspora gender marginalized people and queer peoples Africana existentialist and phenomenologist philosophers in the twentieth and twenty first centuries have been able to generate new frameworks for understanding structures of meaning and consciousness within oppressive colonial orders thus challenging histories of existentialism and phenomenology that bracket social markers of identity and experiences of social identity This text represents a study of the philosophies of scholars that seek to decolonize hegemonic discourses and structures that impede the development of the selves and projects of colonized peoples **La Conversation Fracturée**

Clanton C.W. Dawson Jr.,2017-12-14 This project is a philosophical analysis of the dominant concepts of race that prevail within contemporary American society It is the claim of this book that four main concepts attempt to answer the question what is race The four concepts are racial essentialism race as a social construct with objective status racial nihilism and race as an existential phenomenological process Each concept fails however in providing the necessary and sufficient conditions for a satisfactory concept of race and thus the project calls for a new conceptual framework for answering the question what is race **Esotericism in African American Religious Experience** ,2014-11-06 In Esotericism in African American

Religious Experience There is a Mystery Stephen C Finley Margarita Simon Guillory and Hugh R Page Jr assemble twenty groundbreaking essays that provide a rationale and parameters for Africana Esoteric Studies AES a new trans disciplinary enterprise focused on the investigation of esoteric lore and practices in Africa and the African Diaspora The goals of this new field while akin to those of Religious Studies Africana Studies and Western Esoteric Studies are focused on the impulses that give rise to Africana Esoteric Traditions AETs and the ways in which they can be understood as loci where issues such as race ethnicity and identity are engaged and in which identity embodiment resistance and meaning are negotiated *The*

Routledge Companion to the Philosophy of Race Paul Taylor,Linda Alcoff,Luvell Anderson,2017-11-28 For many decades race and racism have been common areas of study in departments of sociology history political science English and anthropology Much more recently as the historical concept of race and racial categories have faced significant scientific and political challenges philosophers have become more interested in these areas This changing understanding of the ontology of race has invited inquiry from researchers in moral philosophy metaphysics epistemology philosophy of science philosophy of language and aesthetics The Routledge Companion to Philosophy of Race offers in one comprehensive volume newly written articles on race from the world s leading analytic and continental philosophers It is however accessible to a readership beyond philosophy as well providing a cohesive reference for a wide student and academic readership The Companion synthesizes current philosophical understandings of race providing 37 chapters on the history of philosophy and race as well as how race might be investigated in the usual frameworks of contemporary philosophy The volume concludes with a section on philosophical approaches to some topics with broad interest outside of philosophy like colonialism affirmative action eugenics

immigration race and disability and post racialism By clearly explaining and carefully organizing the leading current philosophical thinking on race this timely collection will help define the subject and bring renewed understanding of race to students and researchers in the humanities social science and sciences
