Global Perspectives on Reproductive Rights and Policies Pucelj, Maja, Matusiak-Frącczak, Magdalena, 2024-11-29

Reproductive rights and policies seek to balance different human rights ethics and morals as well as technology. At the same time they concern probably the most intimate sphere of human life. Issues related to reproductive rights are the subject of intensive public debate in which not only politicians but also many nongovernmental organizations (NGOs) and even religious groups take part. All of these actors present essential arguments which should be taken into account when discussing reproductive rights. *Global Perspectives on Reproductive Rights and Policies* comprehensively examines reproductive rights as an essential component of human rights. It offers an in-depth analysis of legal frameworks as well as the ethical implications and societal consequences associated with these rights. Covering topics such as abortion policies, legal frameworks, and women's rights, this book is an excellent resource for researchers, academicians, legal professionals, healthcare professionals, ethicists, policymakers, international organizations, and NGOs.

Global Perspectives on the Health Inequities in Sexual, Reproductive, and Maternal Health Post *Roe v. Wade* Lucy Ingram, Deborah L. Billings, Ndidi Amutah-Onukagha, Andrea Swartzendruber, Chelsea Morroni, Stephen Kennedy, Ana Langer, Supriya Dinesh Mehta, Janet Seeley, 2024-10-07

In June 2022 the United States U.S. Supreme Court overturned *Roe v. Wade* 1973 with the *Dobbs v. Jackson Women's Health Organization* case, thereby eliminating the constitutional right to abortion. As a result, authority now resides with individual states to regulate abortion access. Currently, abortion is banned in several states, severely restricted in some, and protected in others. While the impact of the *Dobbs* decision has yet to be fully realized, it has severe implications for sexual and reproductive health rights and justice, population health, and health equity nationally and globally. The impact of the ruling is expected to exacerbate existing health disparities and produce new inequities in sexual reproductive and maternal health outcomes, disproportionately affecting pregnant people who are already minoritized or disenfranchised, e.g., people of color, people with low incomes, young people, people living in rural areas, immigrants, people who identify as LGBTQIA, justice-involved, and unhoused communities living in states where abortion access has been banned or restricted. This Research Topic aims to elucidate actual short-term potential long-term global and domestic health inequities produced by the *Dobbs* decision and to describe efforts and interventions designed and undertaken to reduce health impacts and inequities in advance or directly after the decision. Recent data from countries that have restricted access to abortion over the past 30 years reveal that such laws actually increase rates of unsafe abortion, which in many instances leads to pregnant people becoming severely ill or dying from preventable causes. In an era of maternal health crisis for people of color in the U.S. and other disadvantaged populations around the world, eliminating the constitutional right to abortion in the U.S. will have a reactionary impact on underserved and minoritized groups everywhere. The implications will be felt globally as the *Dobbs* decision has triggered the development of restrictive policies, increasing inequalities by social and demographic

characteristics Many groups disproportionately experience social disadvantage yielding socially distributed negative exposures including severely limited access to care The goal of the article collection is to identify threats to results of and protections against inequities in reproductive health rights and justice Devoting a Special Issue to this topic brings vital and robust discourse about reproductive justice and health inequity to the forefront of public health
