Accessible Stem Using New Technology To Enable More:

Proceedings of the NIELIT's International Conference on Communication, Electronics and Digital Technology
Palaiahnakote Shivakumara, Saurov Mahanta, Yumnam Jayanta Singh, 2024-07-22 The book presents selected papers from NIELIT's International Conference on Communication Electronics and Digital Technology NICEDT 2024 held during 16-17 February 2024 in Guwahati India. The book is organized in two volumes and covers state-of-the-art research insights on artificial intelligence, machine learning, big data, data analytics, cybersecurity, and forensic network and mobile security, advance computing, cloud computing, quantum computing, VLSI and semiconductors, electronics system, Internet of Things, robotics and automations, blockchain, and software technology, digital technologies for future, and assistive technology for Divyangjan people with disabilities.

Assistive Technologies and Environmental Interventions in Healthcare Lynn Gitlow, Kathleen Flecky, 2019-08-08 Providing a holistic and client-centered approach, *Assistive Technologies and Environmental Interventions in Healthcare* explores the individual's needs within the environment, examines the relationship between disability and a variety of traditional and cutting-edge technologies, and presents a humanistic discussion of Technology Environment Intervention (TEI). Written by a multidisciplinary team of authors, this text introduces readers to a variety of conceptual practice models and the clinical reasoning perspectives. It also provides insight into how designers go about solving human-tech problems, discusses best practices for both face-to-face and virtual teams, and looks at the psychological, sociocultural, and cognitive factors behind the development and provision of assistive technologies. Examines a wide range of technologies and environmental interventions. Demonstrates how a better understanding of the complexity of human interaction with both the physical and social environment can lead to better use of technology. Explores the future of technology and research in TEI. Complete with a range of learning features such as keywords, case studies, and review questions, this book is ideal for undergraduate and graduate students in occupational therapy and other related health professions, as well as those undertaking certification and board examinations.

Web Accessibility Yeliz Yesilada, Simon Harper, 2019-06-03 New and fully updated to cover the last 10 years of accessibility research published since the first edition, this book covers key areas of evaluation and methodology, client-side applications, specialist and novel technologies, along with initial appraisals of disabilities. It provides comprehensive coverage of Web accessibility research. Building on the first, this second edition places more focus on Mobile Web technologies, Web applications, the Internet of Things, and future developments where the Web, as we know it, is blending into infrastructure and where Web-based interface design has become predominant. Written by leading experts in the field, it provides an overview of existing research and also looks at future developments, providing a much deeper insight than can be obtained through existing research libraries, aggregations, or search engines. In tackling the subject from a research rather than a practitioner standpoint, scientists, engineers, and postgraduate students will find a definitive and foundational text that includes field overviews, references, issues, new

research problems and solutions and opinions from industrial experts and renowned academics from leading international institutions including W3C Google IBM and CMU Colorado and Lisbon Universities *Assistive Technology* C.
