A Theory of Capitalist Regulation Michel Aglietta, *Economics and Climate Emergency* Barry Gills, Jamie Morgan, 2022-08-22 This book explores a series of connected themes focused on the role economics and other influential forms of theory and thinking have played in creating the current predicament and the scope for alternatives and how they might be framed Thirty years have passed since the inception of the United Nations Framework Convention on Climate Change UNFCCC and the beginning of policy on climate change Thirty wasted years To most politicians long term collective interest has been denominated in meaningless units of time a never and forever that has continually delayed action From complacency has come potential disaster and we are now living in a time of climate emergency and ecological

breakdown The next decade is a pivotal period requiring fundamental change But numerous impediments remain Continual material energy and economic growth on a planetary scale are manifestly impossible and yet economic theory takes these as a given and political leadership and policy seem unwilling to accept brute reality Instead they offer a series of implausible commitments and pledges rooted in technofixes without addressing the fundamental drivers of the problems the world faces The edited volume explores the issues and offers a variety of ways to think through the problems at hand from postgrowth degrowth and social ecological economics to policy assemblage and transversalism The chapters in this book were originally published in the journal Globalizations

The Shadow of Unfairness Jeffrey Edward Green, 2016-06-01 In this sequel to his prize winning book *The Eyes of the People* Jeffrey Edward Green draws on philosophy history social science and literature to ask what democracy can mean in a world where it is understood that socioeconomic status to some degree will always determine opportunities for civic engagement and career advancement Under this shadow of unfairness Green argues that the most advantaged class are rightly subjected to compulsory public burdens And just as provocatively he urges ordinary citizens living in polities permanently darkened by plutocracy to acknowledge their second class status and the uncomfortable civic ethics that come with it specifically an ethics whereby the pursuit of egalitarianism is informed at least in part by indignation envy uncivil modes of discourse and even the occasional suspension of political care Deeply engaged in the history of political thought *The Shadow of Unfairness* is still first and foremost an effort to illuminate present day politics With the plebeians of ancient Rome as his muse Green develops a plebeian conception of contemporary liberal democracy at once disenchanted yet idealistic in its insistence that the Few Many distinction might be enlisted for progressive purpose Green's analysis is likely to unsettle all sides of the political spectrum but its focus looks beyond narrow partisan concerns and aims instead to understand what the ongoing quest for free and equal citizenship might require once it is accepted that our political and educational systems will always be tainted by socioeconomic inequality
