Annual Catalogue United States Air Force Academy, 1984 United States Air Force Academy United States Air Force Academy, **Something's Gotta Give** Beth R. Bernhardt, Leah H. Hinds, Katina P. Strauch, 2012 The theme of the 2011 Charleston Conference the annual event that explores issues in book and serial acquisition was Something's Gotta Give The conference held November 2-5, 2011 in Charleston SC included 9 pre meetings more than 10 plenaries and over 120 concurrent sessions The theme reflected the increasing sense of strain felt by both libraries and publishers as troubling economic trends and rapid technological change challenge the information supply chain What part of the system will buckle under this pressure Who will be the winners and who will be the losers in this stressful environment The Charleston Conference continues to be a major event for information exchange among librarians vendors and publishers As it begins its fourth decade the Conference is one of the most popular international meetings for information professionals with almost 1500 delegates Conference attendees continue to remark on the informative and thought provoking sessions The Conference provides a collegial atmosphere where librarians vendors and publishers talk freely and directly about issues facing libraries and information providers In this volume the organizers of the meeting are pleased to share some of the learning experiences that they and other attendees had at the conference **Cornell University Courses of Study** Cornell University, 2006

Hensel, 2023-07-03 Co published with the Council on Undergraduate Research Undergraduate research has long been recognized as a high impact practice HIP but has unfortunately been offered only to juniors and seniors and to very few of them often in summer programs This book shows how to engage students in authentic research experiences built into the design of courses in the first two years thus making the experience available to a much greater number of students Research

that is embedded in a course especially general education courses addresses the issue of how to expand undergraduate research to all students Research has shown that students who have early experiences in undergraduate research are more likely to pursue further research prior to and after graduation This is also an issue of social justice because it makes the benefits of undergraduate research available to students who must work during the academic year and in the summer It is widely accepted that the skills developed through undergraduate research help prepare students for their future careers The book addresses all aspects of the topic including What are appropriate expectations for research in the first two years How to design appropriate course based research for first and second year students How to mentor a class rather than individual students How students can disseminate the results of their research Possible citizen science projects appropriate for the first and second years Providing additional resources available to support course based research in the first two years Designed for faculty at four year and two year colleges and including examples from the sciences the social sciences and the humanities the strategies and methods described can be adapted to disciplines not specifically mentioned in the book Many faculty are hesitant to engage first and second year students in undergraduate research because they worry students don't know enough to conduct authentic research in their discipline because they worry about the time it will take to develop activities for these students and because they wonder how they can mentor a whole class of students doing research The authors have successfully dealt with these issues and provide examples of how it is done
