

# THE WALL STREET PROGRAM

## The List of Excel Shortcuts

Always use Excel shortcuts whenever possible. It will help you work faster and will make you a more proficient model builder in the future.

The following is a list of the most useful Excel shortcuts. For shortcuts in which you press two or more keys together, the keys to press are separated by a plus sign. For shortcuts in which you press keys one after the other, the keys to press are separated by a comma.

The list is organized by function and by type of keys.

| Document Actions                       | Shortcut            | Text Style                                   | Shortcut               |
|----------------------------------------|---------------------|----------------------------------------------|------------------------|
| Open a File                            | CTRL + O            | Bold                                         | CTRL + B               |
| New File                               | CTRL + N            | Italic                                       | CTRL + I               |
| Save As                                | F12                 | Underline                                    | CTRL + U               |
| Save                                   | CTRL + S            | Strikethrough                                | CTRL + 5               |
| Print                                  | CTRL + P            |                                              |                        |
| Find                                   | CTRL + F            | <b>Formatting</b>                            | <b>Shortcut</b>        |
| Replace                                | CTRL + H            | Edit active cell                             | F2                     |
| Go to                                  | F5                  | Format as currency with 2 decimal places     | SHIFT + CTRL + \$      |
|                                        |                     | Format as percent with no decimal places     | SHIFT + CTRL + %       |
| <b>Cursor Movement</b>                 | <b>Shortcut</b>     | Cut                                          | CTRL + X               |
| Top of worksheet (cell A1)             | CTRL + Home         | Copy                                         | CTRL + C               |
| End of worksheet (last cell with data) | CTRL + End          | Paste                                        | CTRL + V               |
| End of row                             | Home                | Copy then paste special formats              | CTRL + C, Alt, E, S, T |
| End of column                          | CTRL + Left Arrow   | Copy then paste special formulas             | CTRL + C, Alt, E, S, F |
| Move to next worksheet                 | CTRL + PageDown     | Undo                                         | CTRL + Z               |
|                                        |                     | Redo                                         | CTRL + Y               |
| <b>Formulas</b>                        | <b>Shortcut</b>     | Format cells dialog box                      | CTRL + 1               |
| Current date                           | CTRL + ;            | Applies the general format                   | CTRL + SHIFT + _       |
| Current time                           | F7                  | Bold                                         | CTRL + B               |
| Spelling                               | F1                  | Underline                                    | CTRL + U               |
| Help                                   | ALT + =             | Italic                                       | CTRL + I               |
| Macros                                 | ALT + F8            | Strikethrough                                | CTRL + 5               |
|                                        |                     | Apply the outline border to selected cell    | CTRL + SHIFT + &       |
|                                        |                     | Remove the outline border from selected cell | CTRL + SHIFT + _       |
| <b>Selecting Cells</b>                 | <b>Shortcut</b>     |                                              |                        |
| All cells left of current cell         | SHIFT + Left arrow  |                                              |                        |
| All cells right of current cell        | SHIFT + Right arrow |                                              |                        |
| Entire column                          | CTRL + Spacebar     |                                              |                        |
