Bridging The Class Divide And Other Lessons For Grassroots Organizing:

Bridging the Class Divide Linda Stout, 1997-02-28 Again and again social change movements on matters from the environment to women's rights have been run by middle class leaders But in order to make real progress toward economic and social change poor people those most affected by social problems must be the ones to speak up and lead It can be done Linda Stout herself grew up in poverty in rural North Carolina and went on to found one of this country's most successful and innovative grassroots organizations the Piedmont Peace Project Working for peace jobs health care and basic social services in North Carolina's conservative Piedmont region the project has attracted national attention for its success in drawing leadership from within a working class community actively encouraging diversity and empowering people who have never had a voice in policy decisions to speak up for their own interests The Piedmont Peace Project demonstrates that new ways of organizing can really work Bridging the Class Divide tells the inspiring story of Linda Stout's life as the daughter of a tenant farmer as a self taught activist and as a leader in the progressive movement It also gives practical lessons on how to build real working relationships between people of different income levels races and genders This book will inspire and enrich anyone who works for change in our society **The Nation Guide to the Nation** Richard Lingeman, Nation

A Promise And A Way Of Life Becky Thompson, 2001-08-07 The first in depth look at white people's activism in fighting racism during the past fifty years Not since the Civil Rights Movement of the 1950s and 1960s when many white college students went south to fight against Jim Crow laws has white antiracist activity held the public's attention Yet there have always been white people involved in fighting racism In this passionate work Becky Thompson looks at white Americans who have struggled against racism offering examples of both successes and failures inspirations practical philosophies and a way ahead A Promise and a Way of Life weaves an account of the past half century based on the life histories of thirty nine people who have placed antiracist activism at the center of their lives Through a rich and fascinating narrative that links individual experiences with social and political history Thompson shows the ways both public and personal in which whites have opposed racism during several social movements the Civil Rights and Black Power movements multiracial feminism the Central American peace movement the struggle for antiracist education and activism against the prison industry Beginning with the diverse catalysts that started these activists on their journeys this book demonstrates the contributions and limitations of white antiracism in key social justice movements Through these stories crucial questions are raised Does antiracist work require a repudiation of one's whiteness or can that identity be transformed through political commitment and alliances What do white people need to do to undermine white privilege What would it take to build a multiracial movement in which white people are responsible for creating antiracist alliances while not co-opting people of color Unique in its depth and thoroughness A Promise and a Way of

Life is essential for anyone currently fighting racism or wondering how to do so Through its demonstration of the extraordinary personal and social transformations ordinary people can make it provides a new paradigm for movement activity one that will help to incite and guide future antiracist activism **Missing Class** Betsy Leondar-Wright, 2014-03-20

Many activists worry about the same few problems in their groups low turnout inactive members conflicting views on racism overtalking and offensive violations of group norms But in searching for solutions to these predictable and intractable troubles progressive social movement groups overlook class culture differences In *Missing Class* Betsy Leondar Wright uses a class focused lens to show that members with different class life experiences tend to approach these problems differently This perspective enables readers to envision new solutions that draw on the strengths of all class cultures to form the basis of stronger cross class and multiracial movements The first comprehensive empirical study of US activist class cultures *Missing Class* looks at class dynamics in 25 groups that span the gamut of social movement organizations in the United States today including the labor movement grassroots community organizing and groups working on global causes in the anarchist and progressive traditions Leondar Wright applies Pierre Bourdieu's theories of cultural capital and habitus to four class trajectories lifelong working class and poor lifelong professional middle class voluntarily downwardly mobile and upwardly mobile Compellingly written for both activists and social scientists this book describes class differences in paths to activism attitudes toward leadership methods of conflict resolution ways of using language diversity practices use of humor methods of recruiting and group process preferences Too often we miss class *Missing Class* makes a persuasive case that seeing class culture differences could enable activists to strengthen their own groups and build more durable cross class alliances for social justice
