An Unspoken Compromise:

An Unspoken Compromise Rizi Xavier Timane, Ph.d.,2013-05 Rizi Xavier Timane has a message for the world and for the LGBT community in particular God loves you just the way you are For centuries misguided individuals and indeed entire societies have used religious texts to condemn and persecute minorities and anyone perceived as different and as a transgendered minister and a person of color Rizi has experienced such discrimination and hatred firsthand In *An Uncommon Compromise A Spiritual Guide for LGBT People of Faith* he shares the struggles he s gone through since childhood to find his own identity and his place in the world and within his parents strict Christian religion What he s found and what he shares in this book is that one person can change the world by telling people the truth about God s unconditional love for us all It all begins with loving yourself just as you are That is God s way and it can be it must be ours as well *New Mexico's Quest for Statehood, 1846-1912* Robert W. Larson,2013-08-15 Why did New Mexico remain so long in political limbo before being admitted to the Union as a state Combining extensive research and a clear and well organized style Robert W Larson provides the answers to this question in a thorough and comprehensive account of the territory s extraordinary six decade struggle for statehood This book is no mere chronology of political moves however It is the history of a turbulent frontier state sweeping into the current almost every colorful character of the territory Not only politicians but ranchers outlaws soldiers newspapermen Indians merchants lawyers and people from every walk of life were involved This is a book for the reader who is interested in any aspect of southwestern territorial history *From the Ruins of Empire* Pankaj Mishra,2012-09-04 A surprising gripping narrative depicting the thinkers whose ideas shaped contemporary China India and the Muslim world A little more than a century ago as the Japanese navy annihilated the giant Russian one at the Battle of Tsushima original thinkers across Asia working independently sought to frame a distinctly Asian intellectual tradition that would inform and inspire the continent s anticipated rise to dominance Asian dominance did not come to pass and those thinkers Tagore Gandhi and later Nehru in India Liang Qichao and Sun Yatsen in China Jamal al Din al Afghani and Abdurreshi al Ibrahim in the ruins of the Ottoman Empire are seen as outriders from the main anticolonial tradition But Pankaj Mishra shows that it was otherwise in this stereotype shattering book His enthralling group portrait of like minds scattered across a vast continent makes clear that modern Asia s revolt against the West is not the one led by faith fired terrorists and thwarted peasants but one with deep roots in the work of thinkers who devised a view of life that was neither modern nor antimodern neither colonialist nor anticolonialist In broad deep dramatic chapters Mishra tells the stories of these figures unpacks their philosophies and reveals their shared goal of a greater Asia Right now when the emergence of a greater Asia seems possible as at no previous time in history *From the Ruins of Empire* is as necessary as it is timely a book essential to our understanding of the world and our place in it **Learning for Life** Frank Molyneux,George Low,Gerry Fowler,2012 Although the 1970s and 1980s witnessed a widespread reaction against investment in education there has been

an extraordinary growth of interest in recurrent education This book sponsored by the Association for Recurrent Education reports these considerable developments in both theory and practice in the United Kingdom and abroad It presents a comprehensive picture of the range of initiatives and policies which are helping to make recurrent education one of the strongest sectors in contemporary education

Breaking and Making Models Christoph F. E. Holzhey ,Marietta Kesting,Claudia Peppel,2025-05-20 Practically anything can be a model of or for something else What characterizes models is rather their specific reductive relationality which often promotes understanding but is always generative rather than merely representational The essays in Breaking and Making Models engage with the normative and performative qualities of models their aesthetic and political dimensions and their world making potentials Bringing such perspectives into a broad interdisciplinary dialogue this book explores ways to work creatively with models

Culture, Power, and the State Prasenjit Duara,1991-04-01 In the early twentieth century the Chinese state made strenuous efforts to broaden and deepen its authority over rural society This book is an ambitious attempt to offer both a method and a framework for analyzing Chinese social history in the state making era The author constructs a prismatic view of village level society that shows how marketing kinship water control temple patronage and other structures of human interaction overlapped to form what he calls the cultural nexus of power in local society The author s concept of the cultural nexus and his tracing of how it was altered enables us for the first time to grapple with

change at the village level in all its complexity The author asserts that the growth of the state transformed and delegitimized the traditional cultural nexus during the Republican era particularly in the realm of village leadership and finances Thus the expansion of state power was ultimately and paradoxically responsible for the revolution in China as it eroded the foundations of village life leaving nothing in its place The problems of state making in China were different from those of eighteenth and nineteenth century Europe the Chinese experience heralds the process that would become increasingly common in the emergent states of the developing world under the very different circumstances of the twentieth century
