Analog In Digital Out Brendan Dawes On Interaction Design:

Analog In, Digital Out Brendan Dawes, 2006-09-06 Creativity is an innate human impulse many people believe something we're born with but too often grows out of as adult lives make more and more demands. Fortunately for us the creative drive continues to run strong in legendary designer Brendan Dawes. Habitually alert to the happy accident and possessed of highly eclectic interests and a quirky wit, he has happened into his perfect career. Around this habit, call it a philosophy of asking "Why does this have to be this way? What if Dawes has built magneticNorth, an acclaimed Web and interaction design practice based in Manchester, U.K. In this unique book, Dawes invites readers inside a series of his personal projects to get a view of his process, his creative seeing, making and playing. He encourages designers to look beyond the normal tools of their trade to find inspiration in the most unlikely of places: tubs of children's clay, anonymous notes, household plumbing fixtures, jazz music, snow globes, fast food take-out bags, airport departure gates, and more. Brilliant, original and always grounded in the needs of users, Dawes shares both the techniques he has created and the key lessons he has learned in design: why comfort is the enemy of creativity, how mistakes can be celebrated instead of feared, and how to strip design to its purest and most powerful forms. Known worldwide for his entertaining and inspirational presentations, Dawes now brings profound insights to a book that is certain to become a classic inspiration for designers of every type. Brendan Dawes is Creative Director of the interactive design group magneticNorth based in Manchester, UK. His clients include the Walt Disney Co, the BBC, Kellogg's and Coca-Cola. Dawes' work has been featured in numerous journals including *idN*, *Creative Review*, *MacUser*, *Computer Arts*, *Create*, *The Guardian* and *Communications Arts*. He was also featured in *New Masters of Flash* and other books and is the author of *Flash ActionScript for Designers*, *Drag Slide Fade*. Dawes spends much of the year speaking at conferences around the world, including the HOW Design Conference and Flashforward.

Design: The Key Concepts Catherine McDermott, 2007-10-30 This is the essential student's guide to Design: its practice, its theory and its history. Respected design writer Catherine McDermott draws from a wide range of international examples.

Designing Gestural Interfaces Dan Saffer, 2008-11-21 If you want to get ahead in this new era of interaction design, this is the reference you need. Nintendo's Wii and Apple's iPhone and iPod Touch have made gestural interfaces popular, but until now there's been no complete source of information about the technology. *Designing Gestural Interfaces* provides you with essential information about kinesiology, sensors, ergonomics, physical computing, touchscreen technology and new interface patterns—all you need to know to augment your existing skills in traditional web design, software or product development. Packed with informative illustrations and photos, this book helps you: Get an overview of technologies surrounding touchscreens and interactive environments; Learn the process of designing gestural interfaces from documentation to prototyping to communicating to the audience what the product does; Examine current patterns and trends in touchscreen and gestural design; Learn about the techniques used by practicing designers and developers today; See how other designers have solved

interface challenges in the past Look at future trends in this rapidly evolving field Only six years ago the gestural interfaces introduced in the film *Minority Report* were science fiction Now because of technological social and market forces we see similar interfaces deployed everywhere Designing Gestural Interfaces will help you enter this new world of possibilities
