Analysis By Its History:

Gdr and Its History Peter Barker, 2000 Ten years have now passed since the political changes in the GDR which led to unification A central feature of the past decade has been the discussion concerning the process of historical evaluation of the GDR's 40 year existence This volume takes as its main focus the official process of *Geschichtsaufarbeitung* as represented by the two Enquete Commissions set up by the Bundestag which completed their work in 1994 and 1998 respectively Several of the contributions are by leading participants in the Commissions such as Dorothee Wilms the last CDU Minister for Inner German Relations and Markus Meckel MdB SPD the last Foreign Minister of the GDR and the original proposer of the Commissions in the Bundestag Other chapters look at the various independent initiatives in the area of *Geschichtsaufarbeitung* the role of the Commissions in the context of the overall *Geschichtsdebatte* in relation to the GDR and the attitude of the PDS to the official process of *Geschichtsaufarbeitung* Other topics include an analysis of the way in which Buchenwald was presented to the public after unification a re evaluation of the *Zwangsvereinigung* of the KPD and SPD an examination of the role of education in the GDR the controversial way in which the Churches were treated in the work of the first Commission which led to the dissenting report by the SPD members and the legacy of GDR architecture This is the first volume in English on the Enquete Commissions and will be of interest to students and teachers of contemporary German politics and history It contains thirteen contributions seven in English and six in German

Economic Theory and its History Giuseppe Freni, Heinz D. Kurz, Andrea Mario Lavezzi, Rodolfo Signorino, 2016-01-29 This collection brings together leading economists from around the world to explore key issues in economic analysis and the history of economic thought This book deals with important themes in economics in terms of an approach that has its roots in the works of the classical economists from Adam Smith to David Ricardo The chapters have been inspired by the work of Neri Salvadori who has made key contributions in various areas including the theory of production the theory of value and distribution the theory of economic growth as well as the theory of renewable and deplorable natural resources The main themes in this book include production value and distribution endogenous economic growth renewable and exhaustible natural resources capital and profits oligopolistic competition effective demand and capacity utilization financial regulation and themes in the history of economic analysis Several of the contributions are closely related to the works of Neri Salvadori This is demonstrated with respect to important contemporary topics including the sources of economic growth the role of exhaustible resources in economic development the reduction and disposal of waste the redistribution of income and wealth and the regulation of an inherently unstable financial sector All contributions are brand new original and concise written by leading exponents in their field of expertise Together this volume represents an invaluable contribution to economic analysis and the history of economic thought This book is suitable for those who study economic theory and its history political economy as well as philosophy
