Lexile 10 – 400:

"Picture books can function as either 'adult oriented' reads. They're usually read to a child rather than a child reading them independently. Although seemingly easy reading, some picture books actually have pretty high Lexile measures, and could present a challenging independent reading experience to on-age-appropriate readers. Initially, an adult may want to read the book along with a child." *Sharon Shroder*

Essential Questions and Younger Students

Although essential questions may appear to be targeted younger students, they are in fact appropriate and build enduring understandings and knowledge for them.

The approach will simply be somewhat different when employed with older students.

For younger students, essential questions should be displayed in an obvious location and used as the large and easily viewed. They need to have pictures and illustrations incorporated into them. One should have student illustrations embedded with the essential questions.

Although we have added some simplified language in our essential questions, you will want to alter the word choice for some essential questions depending on your grade level.

Classroom Strategies for Interactive Learning Doug Buehl, 2023-10-10 Educators across all content areas have turned to Classroom Strategies for Interactive Learning for almost two decades. The fourth edition delivers rich practical and research-based strategies that readers have found invaluable in today's classrooms. Author Doug Buehl has written all new chapters that focus on the instructional shifts taking place as the Common Core State Standards are implemented across the United States. These introductory chapters will help you do the following: Understand research-based comprehension strategies for content classrooms; Tap into students' background knowledge to build upon and enhance comprehension of complex texts; Teach students how to question a text; Teach reading and thinking through a disciplinary lens. At the heart of this edition are more than 40 classroom strategies with variations and strategy indexes that identify the instructional focus of each strategy, pinpoint the text frames in play as students read and learn, and correlate students' comprehension processes. In addition, each strategy is cross-referenced with the Common Core's reading, writing, speaking, listening, and language standards. In Search of Deeper Learning Jal Mehta, Sarah Fine, 2019-04-22 The best book on high school dynamics I have ever read. Jay Mathews, Washington Post. An award-winning professor and an accomplished educator take us beyond the hype of reform and inside some of America's most innovative classrooms to show what is working and what isn't in our schools. What would it take to transform industrial-era schools into modern organizations capable of supporting deep learning for all? Jal Mehta and Sarah Fine's quest to answer this question took them inside some of America's most innovative schools and classrooms—places where educators are rethinking both what and how students should learn. The story they tell is alternately discouraging and hopeful. Drawing on hundreds of hours of observations and interviews at thirty different schools, Mehta and Fine reveal that deeper learning is more often the exception than the rule. And yet they find pockets of powerful learning at almost every school, often in electives and extracurriculars as well as in a few mold-breaking academic courses. These spaces achieve depth, the authors argue, because they emphasize purpose and choice, cultivate community, and draw on powerful traditions of apprenticeship. These outliers suggest that it is difficult but possible for schools and classrooms to achieve the integrations that support deep learning: rigor with joy, precision with play, mastery with identity, and creativity. This boldly humanistic book offers a rich account of what education can be. The first panoramic study of American public high schools since the 1980s, *In Search of Deeper Learning* lays out a new vision for American education, one that will set the agenda for schools of the future.
