The Layman's Manual on Christian Apologetics Brian G. Chilton, 2019-11-14 Modern Christians have been bombarded by objections launched against the Christian faith from popular secular authors, bloggers, and stars from the entertainment industry. The church is quickly beginning to acknowledge the need for apologetics due to the number of youth and adults alike leaving the faith. But how does one respond to these objections? For the laity of the church, this is especially difficult as many are left without the proper training to know how to answer these objections. In *The Layman's Manual on Christian Apologetics*, the essentials of apologetics are taken from the ivory towers of academia and are made available to those who have not obtained seminary training or for those thinking about attending seminary. In this book, three major areas of apologetics are covered. The first unit engages the nature of truth and what can be known. The second unit deals with the existence of God and issues involving God's existence. The last unit tackles historical objections to the resurrection of Jesus and early Christianity. *The Layman's Manual on Christian Apologetics* delivers heavy apologetic issues with the laity in mind and blends in personal illustrations to make the material applicable.

Splankna Sarah J. Thiessen, 2017-07-28 We live in a time of remarkable discovery. The world of quantum physics is revealing that the subatomic energetic level of creation relates directly to our health, both physically and emotionally. Rapid and effective healing treatments of many kinds have arisen out of this discovery, but they have been developed from a new age worldview. Subsequently, these advances have been considered off-limits for the Christian community. But the *Splankna* Therapy Institute is changing that. In this groundbreaking book, Sarah J. Thiessen teaches us how to think redemptively in our current healing culture. Grounded in scripture, she walks the reader through the two main arguments against the Christian's use of energy healing techniques: new age and witchcraft. She leaves the reader with new clarity and empowerment. The energetic level of creation belongs to God. It's time He got the credit for it. Being open to discover creative, non-conventional ideas and methods of healing is like discovering the earth is round when the predominate belief states it is flat. Read this book with an open, thoughtful, prayerful mind and heart to discover new understandings of holistic Christian healing.

Crawford, 2024-12-30 In this groundbreaking book Brian J Crawford navigates the complex intellectual landscape that has traditionally separated Jews and Christians His focus is on a scandalous claim God became a man as Jesus of Nazareth Since the Middle Ages Jewish philosophers have said such an idea is impossible and absurd and Jewish mystics have said the idea is redundant for all things are inhabited by divine sparks By critically examining the philosophical underpinnings of the Maimonidean and Kabbalistic thought that has shaped Jewish theology Crawford constructs a compelling case for the incarnation that is grounded in the Hebrew Scriptures consistent with history informed by science and illuminated by philosophical inquiry Included within is a deep interaction with Maimonides's Guide to the Perplexed the Jewish mystical tradition historical Christian orthodoxy and Messianic Jewish theology This landmark study promises to reinvigorate Jewish Christian discourse on the nature of God the Jewishness of the Trinity and the incarnation and the role of philosophy in Judaism and Christianity
