How was it a "...response to women's participation in the American Revolution, Enlightenment ideas, and women's appeals for expanded roles..." What was its effect on American cultural, social, and political life?

Republican motherhood was the belief that women should have more rights so they could help more with their families in political ideas in society. It was a response to women's participation in the revolution, Enlightenment Ideas, and women's appeal for expanded roles because women began having more important roles, education was opening up to women. Women started to argue about the beliefs of a man, and when men left for war, women who were at home would do what they did when they were gone.

2. How did George Washington "create institutions and precedents" that put the Constitution into practice? How was he responsible for creating precedents that the new government followed? What did John Adams do during his presidency that was responsible for precedents?

George Washington created institutions and presidents to put the constitution during presidential administrations. He was responsible for creating presidents that the new government followed by addressing important issues throughout the United States. This would later get enforced in the constitution. John Adams was responsible for precedents as he would create a navy, tried to continue peace with other nations, and provided funds for future wars to come.
