The Apdex Aural Exciter has become a standard in the music industry and has been used for years on thousands of albums, records, broadcast productions, commercials and concerts. The Aural Exciter is now recognized as a unique method to achieve clarity, definition and dynamic range in the reproduction of sound. The program material is "stereoized", producing more detail and intelligibility, as well as greater impact and dynamic range. The sound quality is now subject to reproduction through the various parameters and components from production to final consumer.

The Apdex Aural Exciter achieves these effects by creating a signal component of frequency response phase shift, amplitude response harmonic, and stereo effect with the original.

It is a natural acoustic environment, a stereo effect that the primary signal as well as stereo effect, low level stereo effect.
