THE INDIVIDUAL

The man who knows other men, who knows more about your self, your friends or business acquaintances. Know more about them and you will be wiser. Acquaintance or real declaration are possible. The science presented has the scientific method; covering a full, universal, accurate knowledge of the individual. It is not a collection of studies and more than his possible of natural forces for the job. Try Character Analysis from handwriting. It saves time, money, and labor; it gives efficiency right from the start. Graphology gets at the mental motive of a man's attitude and gives direction with saving knowledge. It is the only scientific method of the present that can be used for the future. It can be used now, and to apply this knowledge to business or to social relations with others. A person of ordinary intelligence can learn this science, for studying the simple rules given in this book.
