AUDIT RATING STANDARDS

Instructions: Circle the audit rating determined through the completion of the audit rating grid on Page 4.

GOOD

Areas given a "Good" rating are well-controlled in every respect and demonstrate quality performance in almost every aspect. Performance is above average and adequately provides for the safe and sound operation of the area audited. Findings noted are minor, are not indicative of any significant weaknesses in policies, practices or procedures, and are generally corrected in the normal course of business.

SATISFACTORY

Areas given a "Satisfactory" opinion have acceptable internal controls and demonstrate adequate performance in most respects. Policies, practices and procedures are generally effective but may reflect modest weaknesses that are readily correctable in the normal course of business. Commitment to internal control and operating efficiency are acceptable. Some problems of relative significance may exist, but none are considered material.

REQUIRES IMPROVEMENT

Areas given a "Requires Improvement" opinion exhibit weaknesses within the internal control systems or the absence of internal control surrounding significant activities. Additionally, these areas demonstrate performance that is not adequately monitored and/or supervised by management, nor are policies and procedures always effective to promote a climate where internal control concepts may be realized. Commitment to internal control and/or operating efficiency needs enhancement.

UNSATISFACTORY

Areas given an "Unsatisfactory" opinion display performance or conditions that exhibit significant control weaknesses throughout the areas included in the audit scope. In these areas, many basic internal control concepts are not in effect and internal control systems are weak to the extent that significant financial losses or violations of law or regulation could occur or may have occurred. The lack of policies and procedures or adherence to them will prevent the accomplishment of a substantial part of the area's objectives. Corrective action must be immediately implemented with periodic (e.g., monthly) status reports routed to the area's executive management.

CONCURRENCE/NONCONCURRENCE

This rating applies to systems development and business or control projects in the process. It conveys agreement/disagreement with a course of action or documents an opposing point of view. In each case, the report will state whether audit believes the project should be aborted, or what actions should be taken prior to commencing the next phase.

NOT RATED

The conditions or purposes of the audit do not require a rating to be assigned.
