Beginning Hibernate Experts Voice In Java Technology:

Beginning Hibernate Dave Minter, Jeff Linwood, 2007-02-01 This book is written for users experienced in using Java with databases but inexperienced in the use of the open source lightweight Hibernate the most popular de facto object relational mapping and database oriented application development framework The book has plentiful examples and handy reference sections including a comprehensive reference for Hibernate O R mapping strategies Beginning Hibernate 3 is packed with brand new information on the latest release of the Hibernate persistence layer and provides a clear introduction to the de facto standard for object relational persistence in Java Readers will get started right away with building transaction based engines and applications

Beginning Hibernate Jeff Linwood, Dave Minter, 2010-06-30 Beginning Hibernate Second Edition is ideal if you re experienced in Java with databases the traditional or connected approach but new to open source lightweight Hibernate the de facto object relational mapping and database oriented application development framework This book packs in information about the release of the Hibernate 3 5 persistence layer and provides a clear introduction to the current standard for object relational persistence in Java And since the book keeps its focus on Hibernate without wasting time on nonessential third party tools you ll be able to immediately start building transaction based engines and applications Experienced authors Dave Minter and Jeff Linwood provide more in depth examples than any other book for Hibernate beginners The authors also present material in a lively example based manner not a dry theoretical hard to read fashion

Beginning POJOs Brian Sam-Bodden, 2006 ONLY Beginning level book that introduces major Open Source Java tools and frameworks from scratch Covers the most successful and prevalent open source and some lightweight tools and frameworks like Spring JBoss Hibernate Tapestry Ant and more Shows how to build an enterprise application end to end integrating the different open source frameworks including rapid enterprise Java application development

Beginning Spring 2 Dave Minter, 2008-08-31 Spring has made a remarkable rise since its conception in 2002 Users find Spring the ideal framework to build their applications in J2EE environments Beginning Spring 2 is the first Spring authorized book that takes you through the first steps of using Spring and requires no prior J2EE experience It discusses relevant integrated technologies that you should be aware of and illustrates how Spring makes using them easier The book teaches the correct usage of Spring in applications and lowers the learning curve on J2EE standards It covers useful features of Spring without delving too far into complicated features The authors take advantage of less complex alternatives whenever possible and shows how Spring can make you more productive in complicated environments where J2EE technologies need to be applied The book covers the complete Spring web tools portfolio and deals with persistence and transaction management It also introduces 3 tier application design and how to test these designs

Spring Persistence with Hibernate Paul Fisher, Brian D. Murphy, 2011-02-01 Persistence is an important set of techniques and technologies for accessing and transacting data and ensuring that data is mobile regardless of specific applications and contexts In Java development

persistence is a key factor in enterprise e commerce and other transaction oriented applications Today the Spring framework is the leading out of the box solution for enterprise Java developers in it you can find a number of Java Persistence solutions This book gets you rolling with fundamental Spring Framework 3 concepts and integrating persistence functionality into enterprise Java applications using Hibernate the JavaTM Persistence API JPA 2 and the Grails Object Relational Mapping tool GORM Covers core Hibernate fundamentals demonstrating how the framework can be best utilized within a Spring application context Covers how to use and integrate JPA 2 found in the new Java EE 6 platform Covers how to integrate and use the new Grails persistence engine GORM *Computerworld* ,2006-12-11 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network **Dataquest** ,2007 *Los Angeles Magazine* ,2003-11 Los Angeles magazine is a regional magazine of national stature Our combination of award winning feature writing investigative reporting service journalism and design covers the people lifestyle culture entertainment fashion art and architecture and news that define Southern California Started in the spring of 1961 Los Angeles magazine has been addressing the needs and interests of our region for 48 years The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian *Computerworld* ,2006-09-11 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network **Pro Hibernate 3** Dave Minter,Jeff Linwood,2006-11-22 Pro Hibernate 3 is the first book to offer complete coverage of the open source lightweight Hibernate 3 and its features Authors Dave Minter and Jeff Linwood discuss the persistence layer and share design tips and best practices And the duo goes beyond just explaining how to use parts of Hibernate they probe well beneath the surface and teach you how to step back and solve problems thoroughly If you have experience using Java with databases but lack experience with Hibernate then this book is ideal for you Similarly if you have some familiarity with Hibernate 2 and now want to learn the nuances of version 3 then this book is a wise addition to your library
