Perspectives of Management Accounting for Sustainable Business Practices Oncioiu, Ionica, 2022-06-30 In the 21st century management accounting gains new dimensions expanding its research area Additionally management of sustainable performance is one of the phenomena faced by the current business environment and in particular management corporations The focus of management on profitability remains the main objective of any company but it must also take into account the sustainability of social economic and environmental aspects Under these circumstances managerial decisions must be adjusted and strongly substantiated considering the information required by internal and external stakeholders including financial reporting The information requirements of customers and other stakeholders are steadily increasing and some companies face certain problems in implementing the concept of sustainability and environmental reporting Perspectives of Management Accounting for Sustainable Business Practices proposes an interdisciplinary perspective and explores various theoretical and practical approaches to management accounting and its impact in the 21st century on different areas of activity It contrasts external financial accounting for government regulators and the investment community with internal management accounting for managers to leverage decision making Covering topics such as corporate social responsibility disclosure issues and performance analysis this premier reference source is an essential resource for business leaders and executives accountants financial controllers business analysts budgeting managers students and faculty of higher education librarians researchers and academicians *Glimpses of Company Accounts* Ashutosh Mehta, 2016-11-23 **CSR and Management Accounting Challenges in a Time of Global Crises**

Oncioiu, Ionica, 2021-06-25 Modern companies are subject to increasing pressures to conduct their business in an environmentally responsible manner due to social and environmental problems. Management of sustainable performance is one of the phenomena faced by the current business environment and in particular management corporations. The focus of management on profitability remains the main objective of any company but it must also take into account the sustainability of social, economic and environmental aspects. Under these circumstances, managerial decisions need to be adjusted and strongly substantiated, considering the information required by internal and external stakeholders including financial reporting. The information requirements of customers and other stakeholders are steadily increasing and some companies face certain problems in implementing the concept of sustainability and environmental reporting. *CSR and Management Accounting: Challenges in a Time of Global Crises* is a comprehensive reference source that explores various theoretical and practical approaches of management accounting and its impact in the 21st century and investigates new accounting and financial approaches where economic and social aspects become mutually supportive to enhance their impact on community development. Covering topics such as CSR reporting, sustainability and greenwashing, this book is an essential resource for academicians, specialty organizations, chief financial officers, CFOs, financial controllers, business analysts, financial planning and analysis, FP/A analysts, budgeting managers, students, researchers and business environment managers and specialists.

Throughput Accounting in a Hyperconnected World Oncioiu, Ionica, 2019-03-15 This reference book is an IGI Global Core Reference for 2019 as it provides trending research on the ethical management of financial information. With the recent focus on the globalized economy, this publication provides trending research contributed by leading scholars from Europe and Asia on the configuration and use of accounting and financial information models. *Throughput Accounting in a Hyperconnected World* provides innovative insights into controversial debates regarding the configuration and use of accounting and finance information both internally within economic entities and through third parties. These debates underline the major responsibility of users when configuring accounting and finance models and thereby in modelling business information. The content within this publication covers risk analysis, social accounting and entrepreneurial models and is designed for managers, accountants, risk managers, academics, researchers, practitioners and students.
