XBRL-enabled corporate governance reporting taxonomy. Dirk Beerbaum, 2016-05-25 Corporate Governance failures of large corporations such as Lehman Brothers have evoked a plethora of calls for changes in Corporate Governance Principles. Despite the fact that after the financial crisis a number of transnational institutions have called for wide scale changes related to Corporate Governance Principles by further protecting share holders rights it has been proven that theoretical extension and reform of Corporate Governance Principles is not enough because it does not ensure successful implementation. According to a report from Isaksson 2009 corporate disclosures were not in line with OECD principles on good Corporate Governance. Moreover according to Isaksson 2009 the financial crisis can also be traced back to incomplete Corporate Governance disclosures. One major implementation topic involves Corporate Governance Reporting which is very complex for multinational companies as it involves statutory compliance with multiple rules and laws coping with heterogeneous Systems of Corporate Governance. Weimer and Pape 1999, Leuz et al 2003, Tylecote and Visintin 2007 and additionally the compilation of codes Cadbury 1993 and industry specific standards Mach et al 2006, Bebchuk and Spamann 2010. Extensible Business Reporting Language XBRL is assumed as a benchmark related to interactive business disclosures. Chen and Sun 2009, Debreceeny et al 2010, Alles and Piechocki 2012. Does XBRL have the potential to help to reduce the complexity of companies Corporate Governance Reporting? Alles and Piechocki 2012. In the academic literature there are many articles which conclude that it is possible for XBRL to enhance transparency and improve Corporate Governance for financial reporting. Abdullah et al 2009, Roohani et al 2010, Alles and Piechocki 2012, Mller Wickop et al 2013. Therefore an additional question is whether the application of XBRL to the non financial reporting of Corporate Governance can also contribute to enhanced transparency. Within the peer group of listed Foreign Private Issuers on the New York Stock Exchange there is no adequate Taxonomy available.
