Between Pagan and Christian Christopher P. Jones, 2014-03-10 Who and what was pagan depended on the outlook of the observer as Christopher Jones shows in this fresh and penetrating analysis Treating paganism as a historical construct rather than a fixed entity Between Christian and Pagan uncovers the fluid ideas rituals and beliefs that Christians and pagans shared in Late Antiquity *Pagans and Christians in the Late Roman Empire* Marianne Sághy, Edward M. Schoolman, 2017-10-10 Do the terms pagan and Christian transition from paganism to Christianity still hold as explanatory devices to apply to the political religious and cultural transformation experienced Empire wide Revisiting pagans and Christians in Late Antiquity has been a fertile site of scholarship in recent years the paradigm shift in the interpretation of the relations between pagans and Christians replaced the old conflict model with a subtler complex approach and triggered the upsurge of new explanatory models such as multiculturalism cohabitation cooperation identity or group cohesion This collection of essays inscribes itself into the revisionist discussion of pagan Christian relations over a broad territory and time span the Roman Empire from the fourth to the eighth century A set of papers argues that if paganism had never been fully extirpated or denied by the multiethnic educated elite that managed the Roman Empire Christianity came to be presented by the same elite as providing a way for a wider group of people to combine true philosophy and right religion The speed with which this happened is just as remarkable as the long persistence of paganism after the sea change of the fourth century that made Christianity the official religion of the State For a long time afterwards pagans and Christians lived in between polytheistic and monotheist traditions and disputed Classical and non Classical legacies

The Conflict Between Paganism and Christianity in the Fourth Century Arnaldo Momigliano, 1963

Pagan and Christian in an Age of Anxiety E. R. Dodds, 1965 Interest in the world of Late Antiquity is currently undergoing a significant revival and in this provocative book now reissued in paperback E R Dodds anticipated some of the themes now engaging scholars There is abundant material for the study of religious experience in late antiquity and through it Professor Dodds examines from a sociological and psychological standpoint the personal religious attitudes and experiences common to pagans and Christians in the period between Marcus Aurelius and Constantine He looks first at general attitudes to the world and the human condition before turning to specific types of human experience World hatred and asceticism dreams and states of possession and pagan and Christian mysticism are all discussed Finally Dodds considers both pagan views of Christianity and Christian views of paganism as they emerge in the literature of the time Although primarily written for social and religious historians this study will also appeal to all those interested in the ancient world and

its thought *Debate and Dialogue* Majastina Kahlos, 2016-05-13 This book explores the construction of Christian identity in fourth and fifth centuries through inventing fabricating and sharpening binary oppositions Such oppositions for example Christians pagans truth falsehood the one true god the multitude of demons the right religion superstition served to create and reinforce the Christian self identity The author examines how the Christian argumentation against pagans was intertwined with self perception and self affirmation Discussing the relations and interaction between pagan and Christian cultures this book aims at widening historical understanding of the cultural conflicts and the otherness in world history thus contributing to the ongoing discussion about the historical and conceptual basis of cultural tolerance and intolerance This book offers a valuable contribution to contemporary scholarly debate about Late Antique religious history and the relationship between Christianity and other religions *Pagan and Christian Rome* Rodolfo Amedeo Lanciani, 1892

Pagan and Christian Creeds Edward Carpenter, 1999 This book provides a systematic and logical approach to the origins of religion Many common themes are shown to exist between Christianity and earlier Pagan religions that go back in time centuries before Christianity itself Carpenter makes an effort to get to the very roots of religion in this book He s trying to uncover where our religious concepts first originated and reveals an evolutionary sequence which starts with phallic and procreative cults as having the earliest known impact Following this came a cult of magic much along the lines of Frazer s *The Golden Bough* where spirits and earth divinities were worshipped Lastly came the belief in actual God figures that came down from heaven A big part of early religion also concerns the consciousness which is generally found today Lastly and most importantly Carpenter mentions a third type of consciousness found in many of the rites and beliefs of ancient religions but which we seem to have lost today He considers this form of consciousness unnamed but provides an Appendix on the doctrines of the Upanishads which he says at least gives us an idea concerning this third stage of consciousness and the mental attitude required Only here in this higher stage that we ve been striving for are the real facts of the inner life found
