Beyond Choice The Abortion Story No One Is Telling

Brad Stetson

Beyond Choice The Abortion Story No One Is Telling:

Beyond Choice Don Baker, 1990 Biblical Counsel , 1993 **Politics of Abortion and Birth Control in Historical Perspective** Donald T. Critchlow, 2010-11-01 While there is extensive literature on the social history politics and legal aspects of birth control and abortion in the United States the history of family planning as a policy remains to be fully recorded This volume is intended to contribute to this history by examining birth control and abortion within a larger cultural policy and comparative framework The essays contained in this volume represent a variety of perspectives and scholarly interests In many instances the authors differ with each other as well as with the editor on fundamental points of historical interpretation They all however share a commitment to study the politics of population within a scholarly framework that emphasizes the importance of policy history for understanding past and contemporary problems *Cultural Conceptions* Valerie Hartouni, 1997 Examines the meaning of life in an era of emerging biotechnology What happens to prevailing beliefs about the uniqueness of individual life when life can be cloned Or to traditional understandings of family relationships when a child can have up to five parents These are some of the questions addressed by Valerie Hartouni in her consideration of the cultural effects of new reproductive technologies as reflected in video images popular journalism scientific debates legal briefs and policy decisions In *Cultural Conceptions* Hartouni tracks the circulation and communication of various myths images and stories pertaining to new reproductive technologies and their effects both imagined and real during the past two decades While addressing topics ranging from surrogacy and cloning to adoption ultrasound imaging and abortion Hartouni looks to American popular culture for clues to what these new and not so new reproductive practices tell us about issues of personhood Hartouni investigates the emergence of new anxieties about the nature of selfhood as well as the recurrence of age old myths regarding individuality sexuality property and family She argues that both are being played out in cultural contests over the meaning and organization of women s reproductive capacity In her discussion of provocative issues such as The Bell Curve controversy and the Baby M case Hartouni traces the dialectic of crisis and containment unleashed by reproductive technologies Ultimately however *Cultural Conceptions* argues that the anxieties that surround new reproductive technologies provide openings for alternative understandings and practices of life to emerge and challenge those currently in place A thoughtful daring and original look at this complex set of issues *Cultural Conceptions* provides an much needed guide to our nation s psyche as we approach the new millennium 3 1/2 Seconds to Live Kate Thomas Baker, Don Baker, 2017-01-17 From a World War to a personal war this is the profoundly personal story of a preacher with PTSD and major depressive disorder Don Baker shares his journey into the darkness the black hole as he calls it and how its shadow has haunted him for over seventy years Insightful vulnerable and honest this is a human story for human readers for people who have tasted life and found it too often bitter and perplexing **Souls, Bodies, Spirits** Kerry N. Jacoby, 1998-04-23 Jacoby provides a comprehensive social history of the abortion abolition campaign from its beginnings following Roe v Wade through

the 1996 elections She explores the abortion abolition effort historically sociologically theologically and politically arguing for a deepened understanding of American abortion opponents The history of the abortion abolition effort in America is examined through three different approaches to the understanding of collective behavior Beginning with the immediate post Roe period the movement is explored as a Catholic moral crusade and Jacoby analyzes why Catholic Americans were particularly prone to such activity as well as why otherwise theologically compatible Protestants were not She then examines the effort as a major social movement beginning around 1980 Finally the late 1980s development of direct action activity most notably in the form of Operation Rescue is viewed in light of its connection to the theology and expectations of religious revivalism In her conclusions Jacoby provides a new model for understanding faith based political action Students teachers and the general public will find this book a thorough comprehensive and accessible examination of the movement

Beyond Choice Alexander Sanger, 2005-07-06 The world has changed but the pro choice position hasn't Now an internationally renowned pro choice advocate and grandson of Margaret Sanger offers a compelling new basis for keeping abortion legal

The Silent Subject Brad Stetson, 1996-01-19 When God willing the abortion controversy is behind us partisans of the pro life and pro choice positions are going to have to live together in this society That is why sloganeering and passionate polemics are inevitable civil conversation is essential And that is why The Silent Subject is such a gift to all of us at this point in the controversy From the foreword by Richard John Neuhaus The essays in this work constitute a sensitive public argument for a reconstruction of the confused yet dominant popular attitudes toward nascent human life and its value Unlike most pro life arguments it offers no strictly religious or exclusively sectarian warrants for its assertions instead bearing a more secular cast speaking to a generalized and pluralistic audience As a whole The Silent Subject embraces no specific particular political ideology Its contributors have a broad spectrum of professional interests political perspectives and social philosophies all of which indicates the fundamentally humanistic and apolitical nature of concern for the unborn and the degree to which they are esteemed This unusual book is a refreshingly candid and morally compelling analysis of the social forces that superintend our cultural outlook toward unborn human life

Technoculture Constance Penley, Andrew Ross, 1991 Case studies of groups including high tech office workers Star trek fans Japanese technoporn producers teenage hackers AIDS activists rap groups and rock stars yield insights about the production and management of repressive technocultures as well as new possibilities for the encouragement of technoliteracy a requirement for the democratization of social communication Annotation copyrighted by Book News Inc Portland OR
