Beyond Neutrality Beyond Neutrality:

Beyond Neutrality George Sher,1997-01-13 A major contribution to contemporary political theory examining the state's intervention in people's lives

Beyond Neutrality Bernard S. Mayer,2004-04-26 In this thought provoking passionately written book Bernard Mayer an internationally acclaimed leader in the field dares practitioners to ask the hard questions about alternative dispute resolution What's wrong with conflict resolution Why aren't more individuals and organizations using conflict resolution when they have a problem Why doesn't the public know more about it What are the limits of conflict resolution When does conflict resolution work and when does it not Offering a committed practitioner's critique of the profession of mediation arbitration and alternative dispute resolution *Beyond Neutrality* focuses on the current crisis in the field of conflict resolution and offers a pragmatic response

Perfectionism and Contemporary Feminist Values Kimberly A. Yuracko,2003-02-26 Although formal barriers to women's social and political participation have crumbled society remains to a significant degree gendered in the roles that women and men play Women's and men's choices regarding work and family are largely responsible for maintaining and reinforcing the differences While feminists recognize the need to criticize women's choices too often they focus on restrictive conditions rather than the choices themselves Kimberly A Yuracko argues instead that encouraging women to make choices in accordance with a grounded and well defined conception of perfectionism a philosophy concerned with human flourishing is the most effective way to redress persistent gender inequality To this end Yuracko seeks not only to expose the perfectionism underlying current choice critiques but to articulate a concrete set of feminist perfectionist principles that would improve the quality of individual women's lives and improve the social standing of women as a whole

Neutral Beyond the Cold Pascal Lottaz,Heinz Gärtner,Herbert R. Reginbogin,2022-06-27 The collapse of the Soviet Union and the wars in Yugoslavia radically changed the security environment in Europe and Central Asia Some predictions assumed the emerging unipolarity of the liberal world order would end neutrality policies in East and West but as this volume shows this was not the case While some traditional Cold War neutrals like Sweden and Finland have been edging closer to security alignment with western institutions there are others like Austria Switzerland Ireland and Malta that remained committed to their traditional nonaligned foreign policy approaches More importantly there are areas of Eurasia that developed new forms of neutrality policies most of them only noticed on the margins of academic discourse This is the first book to systematically explore this new neutralism of the Post Cold War In part one the book analyzes contemporary neutrality discourse on several levels like international organizations UN ASEAN diplomacy and academic theory Part two discusses neutrality related policy developments in Belarus Moldova Ukraine Georgia Serbia Turkmenistan Afghanistan and Mongolia Together the 15 chapters show how on this vast connected landmass references to neutrality have remained a staple of international politics

Beyond Neutrality John Bluck,1978

Beyond Neutrality John Bluck,1978

Beyond Neutrality George Sher,1997-01-13 Many people including many contemporary philosophers believe that the state has no

business trying to improve people's characters or elevate their tastes or prevent them from living degraded lives. They believe that governments should remain absolutely neutral when it comes to the consideration of competing conceptions of the good. One fundamental aim of George Sher's book is to show that this view is indefensible. A second complementary aim is to articulate a conception of the good that is worthy of promotion by the state. **Beyond The Rule Of Thumb** Tito

Boeri, 2019-04-23 This book discusses the rationale for correcting market prices in the evaluation of public investments. It also aims at covering techniques of project appraisals such as the effects method, cost efficiency techniques, multicriteria analysis, and related logical frameworks. **Beyond Same-Sex Marriage** Ronald C. Den Otter, 2016-09-06

Although the debate over same-sex marriage in the United States has ended, no one seems to know what lies on the horizon. The conversation about what marriage could be like in the future is no longer confined to academics. In his dissent in *Obergefell*, Chief Justice Roberts linked the constitutionally mandated legal recognition of same-sex marriage to the possibility that states may also have to recognize multi-person intimate relationships as well to avoid discriminating against plural marriage enthusiasts. The popularity of television shows like TLC's *Sister Wives* and HBO's *Big Love* suggests that Americans no longer can be dismissive of the possibility that in the foreseeable future marriage could and perhaps should look very different than it does today. Rather than settling the question of whether states ought to abolish marriage, make it more inclusive, contractual, or call it something else, this book exposes readers to some of the normative, legal, and empirical questions that Americans must address before they can deliberate thoughtfully about whether to keep the marital status quo where monogamy remains privileged. Unlike much of the debate over same-sex marriage, they exchange reasons with one another as they discuss marital reform. This book is for ordinary Americans, their elected representatives, and judges to help them ultimately decide whether they want to continue to define marriage so narrowly, make it more inclusive to avoid discrimination, or have the state leave the marriage business. This edited interdisciplinary volume contains eight original contributions, all of which illuminate important but often neglected areas of the topic. **Beyond Grief** Pippa

Vosper, 2022-08-25 Essential reading for anyone who has been through the sadness of a lost pregnancy. *The Times* Sensitive and insightful. *Sunday Times* Style. This book will be a godsend to any woman going through the murky devastation that is called miscarriage but feels like something else entirely: the loss of a baby. Ariel Levy. A compassionate, nuanced book that does this very complicated grief justice. Pandora Sykes. This book will be the friend to hold your hand while you navigate your own pathway of grief. I'm so glad it's here. Elle Wright. *Beyond Grief* also contains interviews with experts and other women who have experienced losses of their own, including Elizabeth Day, Leandra Medine, Cohen, Melissa Odabash, Jools Oliver, Alexandra Stedman, and Latham Thomas. Pippa Vosper tragically lost her son Axel in 2017 when she was five months pregnant and has since written about miscarriage and baby loss online and in a series of pieces for *Vogue*. *Beyond Grief: Navigating the Journey of Pregnancy and Baby Loss* is the book she wishes had been available when her son died. It covers

every aspect of pregnancy and baby loss at any stage from the practical to the emotional with advice from experts and stories from women who have been through it themselves Beyond Grief offers both an inclusive perspective and a guiding hand to anyone who has experienced any kind of pregnancy loss as well as those who are trying to support them through it
