Beyond Winning National Association of Fellowships Advisors. Conference, National Association of Fellowships Advisors. Conference Proceedings, 2005-04-01 Each year thousands of students apply for competitive national and international scholarships such as the Rhodes Marshall Gates Cambridge and Fulbright The competition for these awards is intense and students look to scholarship advisors for support Many universities have created an office or designated part of an office to assist these students which has provided greater access for students who may not have applied previously or successfully It has also increased the competition The twelve essays in this collection from the 2003 National Association of Fellowships Advisors Conference held at the University of Denver Essays by the heads of the Rhodes Marshall Gates and Truman Scholarship foundations provide a sense of the philosophy and direction of their programs The essays provide information on new initiatives insights into the history and significance of the programs and insider tips for application and interview preparation Other essays focus on the advising and application process from successful advisors at various universities how the U K higher educational system differs from that in the United States and the key issue of ethics in the application process All the essays demonstrate that the scholarship application experience itself is a valuable one that is more about learning and service than it is about winning Beyond Winning Kim Payne, Luis Llosa, Scott

Lancaster, 2013-08-20 These days it seems everyone has a youth sports horror story whether it's about a tyrant coach obsessed with his team record that only plays the best kids on the team or a parent who publicly berates his kid for not making a goal But should it really only be all about winning What about having fun learning a sport and developing athletic skills **Beyond Winning** with Whole Child Sports offers an alternative approach to teaching sports to kids It deemphasizes short term goals like winning and youth championships and discourages the introduction of adult oriented league structured competition Instead it emphasizes training techniques and coaching strategies aimed at improving core strength balance and creativity in aspiring athletes using an age appropriate four stage timeline based on a child's physical psychological and neurological development **Beyond Winning** with Whole Child Sports provides frustrated parents with help in the form of advice and concrete solutions to common questions and step by step instructions for helping young children develop athletic ability in an environment that's less structured while encouraging athletic and personal growth It also reveals how to avoid bullying trash talk and elitism **Beyond Winning** Robert H.
