Better Environmental Decisions Better Environmental Decisions:

Better Environmental Decisions Ken Sexton, 1999 *Better Environmental Decisions* brings together leading scholars and practitioners from business government and communities to provide a comprehensive interdisciplinary introduction to the new landscape of environmental regulation and agreements Each chapter describes an important aspect of environmental decision making identifies key issues problems and barriers and recommends ways to improve both the process and the final result Throughout contributors focus on providing tools to make better decisions and on presenting solutions to real world problems This useful work will be a landmark reference and text for scholars and students as well as legislators regulators advocates and community activists O Wechsel ist denn hier der Orth.... , 1680 Hacia Un Planteamiento Unificado Para Inventariar Y Monitorear Los Recursos de Los Ecosistemas Forestales , 1999 **Democracy in Practice** Thomas C. Beierle, 2010-09-30 In spite of the expanding role of public participation in environmental decisionmaking there has been little systematic examination of whether it has to date contributed toward better environmental management Neither have there been extensive empirical studies to examine how participation processes can be made more effective *Democracy in Practice* brings together for the first time the collected experience of 30 years of public involvement in environmental decisionmaking Using data from 239 cases the authors evaluate the success of public participation and the contextual and procedural factors that lead to it Thomas Beierle and Jerry Cayford demonstrate that public participation has not only improved environmental policy but it has also played an important educational role and has helped resolve the conflict and mistrust that often plague environmental issues Among the authors findings are that intensive problem solving processes are most effective for achieving a broad set of social goals and participant motivation and agency responsiveness are key factors for success *Democracy in Practice* will be useful for a broad range of interests For researchers it assembles the most comprehensive data set on the practice of public participation and presents a systematic typology and evaluation framework For policymakers political leaders and citizens it provides concrete advice about what to expect from public participation and how it can be made more effective *Democracy in Practice* concludes with a systematic guide for use by government agencies in their efforts to design successful public participation efforts *National Conference on Managing the Environment* United States. Environmental Protection Agency, 1973 *Community-Based Monitoring Initiatives of Water and Environment: Evaluation of Establishment Dynamics and Results* Mohammad Gharesifard, 2021-02-25 Citizen participation in water and environmental management via community based monitoring CBM has been praised for the potential to facilitate better informed more inclusive transparent and representative decision making However methodological and empirical research trying to conceptualize and evaluate the dynamics at play that might enable or hinder these initiatives from delivering on their potential is limited This research contributed to the conceptualization of CBMs through development of a conceptual framework that is suitable for Context analysis Process evaluation and Impact assessment of CBMs the CPI

Framework This conceptualization provides an interpretation of what community means in the context of a CBM initiative In addition this research contributed to the existing empirical knowledge about the establishment functioning and outcomes of CBMs by testing the CPI Framework for studying two real life CBMs throughout the lifetime of an EU funded project the Ground Truth 2 0 The first CBM is called Grip op Water Altena that focuses on the issue of pluvial floods in Land van Heusden en Altena of the Netherlands The second CBM is Maasai Mara Citizen Observatory and aims at contributing to a better balance between biodiversity conservation and sustainable livelihood management in the Mara ecosystem in Kenya

Environmental Decision-making in Minnesota University of Minnesota. Center for Studies of the Physical Environment, Minnesota State Planning Agency, 1973 **Changing European farming systems for a better future** Hans Langeveld, Niels Röling, 2023-08-28 Changes in market organisation climatic conditions and societal demands on food quality animal welfare and environmental quality have created new conditions for farming families as well as for researchers and policy makers New social technical and economic solutions are needed for farming and rural areas This book presents new perspectives for farms farm products and rural areas many of which were collectively developed by coalitions of farmers farmer representatives researchers civilians and or policy makers Contributions are made from those involved in crop and animal production worldwide offering sections on natural resources management development of sustainable rural systems future perspectives for farming families knowledge systems in transition and learning processes in multi stakeholder processes This unique collection of contributions presenting insights from bio physical as well as social sciences shows where practice meets analysis and reflection and offers new perspectives for rural areas throughout the world Taking Stock of Environmental Assessment Jane Holder, Donald McGillivray, 2007-11-13 Examining the relationship between law environmental governance and the regulation of decision making this volume both reflective and contextual in approach uses a wide range of theories to explore the key features of modern environmental assessment *Towards Environmental Innovation Systems* K. Matthias Weber, Jens Hemmelskamp, 2005-02-11 Here is a dialog among worldwide experts across disciplines concerning theoretical frameworks and practical experiences to guide research and policy towards environmental innovation systems The contributors explore new directions of research at the border of two research traditions systems of innovation and environmental innovations The text examines the four main components of environmental innovation systems conceptual foundations empirical experiences strategic approaches and experiences with policy instruments
