Between Feast and Famine John Nott, 2025-03-18 Ghana s twentieth century was one of dramatic political economic and environmental change Sparked initially by the impositions of colonial rule these transformations had significant if rarely uniform repercussions for the determinants of good and bad nutrition All across this new and uneven polity food production domestic reproduction gender relations and food cultures underwent radical and rapid change This

volatile national history was matched only by the scientific instability of nutritional medicine during these same years Moving between the dry Northern savannah the mineral rich and food secure Southern rainforest and the youthful ever expanding cities Between Feast and Famine is a comparative history of nutrition in Ghana since the end of the nineteenth century At the heart of this story is an analysis of how an uneven capitalist transformation variously affected the lives of women and children It traces the change from sporadic periods of hunger in the nineteenth and early twentieth centuries through epidemics of childhood malnutrition during the twentieth century and into emergent epidemics of diet related non communicable disease in the twenty first century Employing a novel critical approach to historical epidemiology John Nott argues that detailing the co production of science and its subjects in the past is essential for understanding and improving health in the present Praise for Between Feast and Famine This is a tour de force Ghana was an important site for the development of nutritional science in the colonial period as well as a site for its application It is therefore central to the history of a global nutritional science Not only has John Nott pieced together a complex history of that changing science and its application in Ghana in the twentieth century he has also provided a carefully constructed analysis of what was actually happening in terms of food supply health and nutrition in Ghana in this period Few other works manage to do both these things Megan Vaughan Professor of African History and Health Institute of Advanced Studies UCL A Moving Feast Hizky Shoham, 2024-12-30 Winner of the Goldberg Family Foundation Award 2021 What is the meaning of the Jewish rites of initiation known as bar and bat mitzvah in the modern age when the concept of mitzvah religious precept or obligation means so little to most Jewish adolescents Hizky Shoham offers a comprehensive anthropological history of the bar and bat mitzvah ceremonies that seeks to understand why not only have these ceremonies been preserved but are in fact celebrated by more Jewish families and demand greater financial psychological and family resources than ever before The book maps and analyzes the transformation of the rituals in the modern age and endeavors to understand their meanings for the celebrants and other participants in the diverse historical contexts in which the ceremony appeared Is it indeed a rite of initiation The book breaks new ground by placing the rise of the bar and bat mitzvah in the context of the general rise during the modern industrial age of a new system of life cycle rituals rituals that mark the passing of time by latching on to its artificial conventional milestones The child's 12th or 13th birthday functions as a temporal landmark in a personal biography that would otherwise move through homogeneous time Food, Feasts, and Faith Paul Fieldhouse, 2017-04-17 An indispensable resource for exploring food and faith this two volume set offers information on food related religious beliefs customs and practices from around the world Why do Catholics eat fish on Fridays Why are there retirement homes for aged cows in India What culture holds ceremonies to welcome the first salmon More than five billion people worldwide claim a religious identity that shapes the way they think about themselves how they act and what they eat Food Feasts and Faith An Encyclopedia of Food Culture in World Religions explores how the food we eat every day often serves purposes other than to keep us healthy

Feast or Famine? Food and Children's Literature Bridget Carrington, 2014-07-03

In November 2013 the joint annual conference of the British branch of the International Board on Books for Young People IBBY UK and the MA course at the National Centre for Research in Children's Literature NCRCL at Roehampton University took as its focus *Feast or Famine Food in Children's Literature* Food is central to both children's lives and their literature The mouth watering menu of talks given to the conference delegates is richly reflected in this book Speakers examined the uses of food in children's books from the nineteenth century to the present day and in a wide variety of genres from ancient fable to twenty first century fantasy From the contributions to this collection it is shown that food within literature not only reflects the society culture and time in which it is prepared but also is widely used by authors as a means to instruct their juvenile readers and to deliver moral messages

War and Childhood in the Era of the Two World Wars Mischa Honeck, James Marten, 2019-02-21 The histories of modern war and childhood were the result of competing urgencies According to ideals of childhood widely accepted throughout the world by 1900 children should have been protected even hidden from conflict and danger Yet at a time when modern ways of childhood became increasingly possible for economic social and political reasons it became less possible to fully protect them in the face of massive industrialized warfare driven by geopolitical rivalries and expansionist policies Taking a global perspective the chapters in this book examine a wide range of experiences and places In addition to showing

how the engagement of children and youth with war differed according to geography technology class age race gender and the nature of the state they reveal how children acquired agency during the twentieth century s greatest conflicts *The New Shape of Old Island Cultures* Francis X. Hezel, 2001-05-01 The years since World War II have brought unprecedented social change to Micronesia Now drawing on more than four decades of experience living and working in the region Francis X Hezel assesses the most striking changes to have swept over the islands in the past fifty years His careful and comprehensive reading of Micronesian anthropology and history allows him to present insights into patterns of change touching the lives of not only Micronesians but people in other parts of the Pacific as well The broad range of topics covered include family structure land gender roles cultural treatment of life events birth marriage death sexuality political authority and demography and migration Hezel argues that the primary engine of social change in Micronesia has been the dramatic shift from subsistence fishing and gardening to salaried employment in a cash economy He makes the case that this fundamental change has fragmented the extended family changed the way land is viewed revolutionized gender roles and paved the way for an ethics of individualism
