Sylvia Bashevkin

Between Colliding Worlds Between Colliding Worlds:

Between Colliding Worlds Jonathan Malloy, Institute of Public Administration of Canada, 2003-01-01 Jonathan Malloy's *Between Colliding Worlds* examines the relationship between governments and external activists through a comparative study of policy units dedicated to aboriginal and women's issues in Australia and Canada. Malloy identifies these units or special policy agencies as sitting on the boundary between the world of permanent public servants and that of collective social movements working for broad social and political change. These agencies at once represent the interests of social movements to government while simultaneously managing relations with social movements on behalf of government and thus operate in a state of permanent ambiguity. Malloy contends that rather than criticizing these agencies for their inherently contradictory nature we must reconsider them as effectively dealing with the delicate issue of bridging social movements with state politics. In other words the very existence of these special policy agencies provides a forum for social movements and the state to work out their differences. Relying heavily on interviews with public servants and external activists, Malloy argues convincingly that special policy agencies despite or because of their ambiguous relationship to different communities make critical contributions to governance.

Tales of Two Cities Sylvia Bashevkin, 2011-11-01 In the age of globalization state restructuring is changing the political landscape. How does reshaping local government affect citizen involvement in public life? As cities move between centralized and decentralized governance and conservative and progressive leadership what brings out the best and the worst in civic engagement? In this thought provoking book Sylvia Bashevkin examines the consequences of divergent restructuring experiences in London and Toronto. By focusing on the forced amalgamation of local boroughs in Toronto and the creation of a new metropolitan authority in London *Tales of Two Cities* explores the fallout for women as urban citizens. Ultimately context is crucial to whether municipal change signals pessimism or promise. Clear insightful and prescient *Tales of Two Cities* will appeal to those interested in civic affairs, political inclusion and the future of democracy in major urban centres.
