Betweenity Discussion Concept Borderline Psychoanalysis Ebook:

Betweenity Judy Gammelgaard, 2018-09-03 From its inception psychoanalysis has sought to effect a cure through the therapeutic relationship between analyst and analysand. Betweenity looks at what happens when the established framework of the psychoanalytic process is challenged by those with borderline personalities. In this book Judy Gammelgaard looks at how we might understand the analysand who is unable to engage with therapy and how we might bring them to a point where they are able to do so. Areas of discussion include the border between psychiatry and psychoanalysis, early mother-child relationships, the splitting of the ego. This book will be essential reading for all psychoanalysts, psychotherapists, and practitioners wishing to learn more about working with borderline personality structures and disorders. **Resonance of Suffering**

Andre Green, 2018-03-29 Some sixty years after the Controversial Discussions in the early 40s, this passionate book resurrects their spirit on a global scale. Under the author's generous, tactful yet strong leadership, a small discussion group of noteworthy analysts of the International Psychoanalytical Association, coming from all the theoretical and geographical regions in today's psychoanalytic Babel, met several times over three years in order to deal by way of the detailed discussion of their clinical experiences with what to many of those involved was and still is a polemical concept: that of the borderline patient. Such a concept, widely accepted in the United States, remains controversial in many parts of the psychoanalytic universe, mainly in what concerns the multifaceted relationship between psychoanalytic and psychiatric categories. To be remarked upon is the sincerity put to play by the participants in expressing their doubts, their agreements and their disagreements in the heady process of developing a grasp on the others' viewpoint. *Resonance of Suffering* Andre Green, 2018

To be remarked upon is the sincerity put to play by the participants in expressing their doubts, their agreements and their disagreements in the heady process of developing a grasp on the others' viewpoint. In this, they set a model for future interchanges between analysts. The end result is likely to constitute a landmark in the already protracted discussion of the borderline as a diagnosis, as well as of its transference and countertransference implications.
