Starstruck Elizabeth Currid, 2010-11-09 The author of *The Warhol Economy* asks how does celebrity work and why do we care about some people more than others What is celebrity Why is it such a dominant force in our culture And why do we seem preoccupied with it now more than ever Celebrity our collective fascination with particular people is everywhere and takes many forms from the sports star notorious Wall Street tycoon or film icon to the hometown quarterback YouTube sensation or friend who compulsively documents his life on the Internet We follow with rapt attention all the minute details of stars lives their romances their spending habits even how they drink their coffee For those anointed celebrity can translate into big business and top social status but why do some attain stardom while millions of others do not Why are we simply more interested in certain people Elizabeth Currid Halkett presents the first rigorous exploration of celebrity arguing that our desire to celebrate some people and not others has

profound implications elevating social statuses making or breaking careers and companies and generating astronomical dividends Tracing the phenomenon from the art world to tabletop gaming conventions to the film industry Currid Halkett looks at celebrity as an expression of economics geography both real and virtual and networking strategies Starstruck brings together extensive statistical research and analysis along with interviews with top agents and publicists YouTube executives major art dealers and gallery directors Bollywood players and sports experts Laying out the enormous impact of the celebrity industry and identifying the patterns by which individuals become stars Currid Halkett successfully makes the argument that celebrity is an important social phenomenon and a driving force in the worldwide economy *Bill Gates* Adam Woog,1999
