Plant Biotechnology and Genetic Advances Kailash Verma, 2025-01-03 Plant Biotechnology and Genetic Advances aims to inform and inspire the next generation of biotechnologists by exploring contemporary techniques and technologies. We delve into tissue culture and genetic engineering to produce modified plants with enhanced characteristics. These tools promise to revolutionize the future of plant biotechnology and crop genetics contributing to human health and environmental sustainability. We also examine reverse breeding technologies which help new cultivators accelerate breeding to address climate change challenges. Recent advances in biotechnology at the microscopic level involve manipulating cells editing DNA and synthesizing genomes. Our book covers plant biology basics, new biotechnology tools and advances, plant cell structure and function, system biology, genomes, plant disease resistance, plant tissue culture and chloroplast biology. Each chapter includes summaries and discussion questions to reinforce learning. This book is an invaluable resource for students and individuals seeking a deeper understanding of plant biotechnology and genetics.

This essential resource will provide support for teachers of all levels and disciplines from novice to the most experienced during the transition to online teaching.

Generative AI for Personalized Learning Rajesh Kumar Dhanaraj, Balasamy Krishnasamy, Umapriya Rajendran, Suganyadevi Sellappan, Rohan Jaikumar, 2025-11-25 The rapid evolution of generative AI (GenAI) is reshaping education, making personalized learning more adaptive, accessible, and effective than ever before. This book explores the profound ways in which GenAI-driven tools such as GPT-4, transformers, and GANs are transforming traditional teaching and learning paradigms. From real-time curriculum adaptation to AI-powered tutors, GenAI is not just enhancing education; it is redefining it. Through in-depth analysis and real-world case studies from Finland, Singapore, Japan, and the United States, this book examines how AI-driven learning environments foster student engagement and improve outcomes. It highlights the shift from one-size-fits-all education to truly individualized learning paths where AI dynamically adjusts content, pacing, and feedback to each learner's needs. Teachers, rather than being replaced, are empowered with intelligent tools that enhance their instructional strategies. The rise of AI in

education also brings critical challenges This book does not shy away from discussing ethical concerns data privacy issues and the risks of bias in AI driven education It provides a balanced perspective offering strategies to ensure that GenAI serves all students equitably promoting fairness and inclusivity in the classroom Whether you are an educator researcher policymaker or technology leader Generative AI for Personalized Learning offers valuable insights into the future of education It presents a forward thinking vision ne where AI and human expertise work in harmony to create a more responsive scalable and learner centric educational experience The future of learning is not coming t is already here This book is your essential guide to understanding and navigating this transformation Teaching Naked Techniques José Antonio Bowen,C. Edward Watson,2017-01-03 Put Teaching Naked to work in your classroom with clear examples and step by step guidance Teaching Naked Techniques TNT is a practical guide of proven quick ideas for improving classes and essential information for designing anything from one lesson or a group of lessons to an entire course TNT is both a design guide and a sourcebook of ideas a great companion to the award winning Teaching Naked book Teaching Naked Techniques helps higher education faculty design more effective and engaging classrooms The book focuses on each step of class preparation from the entry point and first encounter with content to the classroom surprise There is a chapter on each step in the cycle with an abundance of discipline specific examples plus the latest research on cognition and technology quick lists of ideas and additional resources By rethinking the how when and why of technology faculty are able to create exponentially more opportunities for practical student engagement Student centered activity driven and proven again and again these techniques can revolutionize your classroom Create more effective engaging lessons for higher education Utilize technology outside of the classroom to better engage during class time Examine discipline specific examples of Teaching Naked Techniques Prepare for each class step by step from the student s perspective Teaching Naked flips the classroom by placing the student s first contact with the material outside of class This places the burden of learning on the learner ensures student preparation and frees up class time for active engagement with the material for more effective learning and retention Teaching Naked Techniques is the practical guide for bringing better learning to your classroom *Mobile-Mindful Teaching and Learning* Christina Moore,2023-07-03 This book provides faculty and instructors with an introductory guide to integrating mobile learning in their courses Recognizing that a smartphone is the first and main piece of technology anyone owns with ownership exceeding 95% for those aged 18 29 with a sizable minority of these being smartphone dependent and that instructors are relying on technology for teaching and learning more than ever this book addresses the imperative that course materials and interactions be increasingly available through the technology that students use most often Dispelling the notion that mobile learning is for the tech savvy and adventurous mobile mindful teaching offers teachers a way to take a few steps at a time share options with students and progressively develop ideas and practices The book invites you to explore your own way into mobile learning Christina Moore stresses two principles as you engage with mobile learning intention and

fluidity This begins with mindfully implementing mobile learning opportunities so that students see the usefulness of learning via phone and recognizing the fluid learning environments in which students learn so you can offer online modalities and functions appropriate to purpose and situations The book opens with a start with self section on How to Be a Mobile Mindful Learner offering ideas on exploring the almost infinite available online resources in your discipline to curate a rich and ever expanding compilation of ideas for use in your scholarly work and teaching and identifying different types of learning digital reading audio and visual learning and social learning across multiple devices and contexts to consider as you develop your course The section Toward Mobile Mindful Teaching explores ways to add mobile options to existing learning materials and how they and the LMS functions you use are rendered on a phone by taking a mobile test drive through your course Christina Moore shows how by building up your mobile learning skills to be a more productive scholar and developing habits that feed your curiosity and creativity you can start planning how you can create fluid learning opportunities for your students they can access across devices time and space and take advantage of found moments of time and informal spaces **Sailor Talk**

Mary K. Bercaw Edwards, 2021-03-01 This book investigates the highly engaging topic of the literary and cultural significance of sailor talk The central argument is that sailor talk offers a way of rethinking the figure of the nineteenth century sailor and sailor writer whose language articulated the rich layered and complex culture of sailors in port and at sea From this argument many other compelling threads emerge including questions relating to the seafarer's multifaceted identity maritime labor questions of performativity the ship as theater the varied and multiple registers of sailor talk and the foundational role of maritime language in the lives and works of Herman Melville Joseph Conrad and Jack London The book also includes nods to James Fenimore Cooper Rudyard Kipling and Robert Louis Stevenson Meticulous scholarly research underpins the close readings of literary texts and the scrupulously detailed biographical accounts of three major sailor writers The author's own lived experience as a seafarer adds a refreshingly materialist dimension to the subtle literary readings The book represents a valuable addition to a growing scholarly and political interest in the sea and sea literature By taking the sailor's viewpoint and listening to sailors voices the book also marks a clear intervention in this developing field
