Breaking Ice With Finesse Oil Gas Exploration In The Canadian Arctic:

Breaking Ice with Finesse Karin Clark, Arctic Institute of North America, 1997 **Lock, Stock, and Icebergs** Adam Lajeunesse, 2016-01-15 In 1988 after years of failed negotiations over the status of the Northwest Passage Brian Mulroney gave Ronald Reagan a globe pointed to the Arctic and said Ron that s ours We own it lock stock and icebergs A simple statement it summed up a hundred years of official policy Since the nineteenth century Canadian governments have claimed ownership of the land and the icy passageways that make up the Arctic Archipelago Unfortunately for Ottawa many countries including the United States still do not recognize these as internal Canadian waters Crucial to understanding the complex nature of Canadian Arctic sovereignty is an understanding of its history Lock Stock and Icebergs draws on recently declassified Canadian and American archival material to chart the origins and development of Canadian Arctic maritime policy Uncovering decades of internal policy debates secret negotiations with the United States and long classified joint defence projects Adam Lajeunesse traces the circuitous history of Canada s Arctic maritime sovereignty *Competing Arctic Futures* Nina Wormbs, 2018-08-06 This edited collection explores how narratives about the future of the Arctic have been produced historically up until the present day The contemporary deterministic and monolithic narrative is shown to be only one of several possible ways forward This book problematizes the dominant prediction that there will be increased shipping and resource extraction as the ice melts and shows how this seemingly inevitable future has consequences for the action that can be taken in the present This collection looks to historical projections about the future of the Arctic evaluating why some voices have been heard and championed while others remain marginalised It questions how these historical perspectives have shaped resource allocation and governance structures to understand the forces behind change in the Arctic region Considering the history of individuals and institutions their political and economic networks and their perceived power the essays in this collection offer new perspectives on how the future of the Arctic has been produced and communicated Historical Dictionary of the Inuit Pamela R. Stern, 2013-09-26 The Inuit do not represent a very large population only 160 000 or so spread over a very large portion of the Arctic region and located in four different countries Although they are a people there are many variations from one group to the next and any study of them must consider both similarities and differences The Historical Dictionary of the Inuit introduces us to the Inuit as they actually are and not as they have been traditionally pictured and some would still like to see them looking after their traditional chores and engaged in time honored practices but rather as a modern people trying to shape their worlds in their own interest This second edition includes an updated chronology as well as an introduction to provide a broader view of who the Inuit are where they live and what they do But it is the dictionary section that is most interesting with many new informative entries on persons places events and institutions shedding light not only on the culture but also on the society economy and politics For those seeking further information there is a considerably expanded bibliography This book is an excellent access point for students

researchers and anyone wanting to know more about the Inuit *Small World, Big Market* Budd Hebert, 2014-07-16 *Small World Big Market* Global Business provides an overview of the development of international business with special emphasis on oil production an essential part of economic development The book focuses on major trade patterns including the Silk Road that connected China with Europe beginning at the turn of the millennium the Chinese Tribute Trade that connected China to Southeast Asia Africa and the Mideast beginning in the thirteenth century the spice trade between Southeast Asia and India by the early fifteenth century and European dominated world trade This volume examines gold and silver trade from the Americas to Europe in the sixteenth century and also covers the development of the Americas together with existing African slave trade throughout Eurasia giving rise to the expansion of African slave Budd Hebert also discusses common principles and personal character tools for bringing together diverse cultures to facilitate international business *Small World Big Market* culminates by highlighting selected trends that impact international business *Liberalization and Its Consequences* Werner Baer, Joseph LeRoy Love, 2000 The essays in this volume describe analyse and compare the achievements and the failures of societies that adopted market based economies within a democratic polity after a long period of communist rule Russia and Eastern Europe or military authoritarianism Latin America Together they also trace the rocky course of liberal economic policies over the whole twentieth century *Where the Rivers Meet* Carly A. Dokis, 2015-07-01 Oil and gas companies now recognize that industrial projects in the Canadian North can only succeed if Aboriginal communities are involved in decision making processes Are Aboriginal concerns appropriately addressed through current consultation and participatory processes *Where the Rivers Meet* is an ethnographic account of Sahtu Dene involvement in the environmental assessment of the Mackenzie Gas Project a massive pipeline that if completed would have unprecedented effects on Aboriginal communities in the North Carly A Dokis reveals that while there has been some progress in establishing avenues for Dene participation in decision making the structure of participatory and consultation processes fails to meet the expectations of local people by requiring them to participate in ways that are incommensurable with their experiential knowledge and understandings of the environment Ultimately Dokis finds that the evaluation of such projects remains rooted in non local beliefs about the nature of the environment the commodification of land and the inevitability of a hydrocarbon based economy *Canadian Books in Print 2002* Marian Butler, 2002-02 *Canadian Books in Print. Author and Title Index* , 1975 *Canadian Books in Print* , 2003
