

BCRS BRIEF COGNITIVE RATING SCALE

Adapted from Reisberg, B. and Ferris, S.H., Brief Cognitive Rating Scale (BCRS). *Psychopharmacology Bulletin*, 1988, 24:629-636.

Hi, my name is JCC. Tell me your (full) name. I would like to ask you some questions about your memory and thinking skills. Just answer the best that you can, if you can't remember, or don't know, just say "I don't know."

SCORE	ADULT-CONCENTRATION. Taking into consideration education level, ask: "How far did you go in school?" "How are you at subtraction?" "What is 7 from 100? 7 from 50, 7 from 80?" (If you can't do ask 49, if can't do ask 24)
1	No objective or subjective evidence of a deficit in concentration.
2	Subjective decrement in concentration ability.
3	Minor objective signs of poor concentration (e.g., subtraction of serial 7s from 100).
4	Definite concentration deficit for persons of their background (e.g., marked deficit on serial 7s, a frequent deficit in subtraction of serial 4s from 40s).
5	Marked concentration deficit (e.g., giving months backwards on serial 2s from 20).
6	Forgot the concentration task. Frequently begins to count forward when asked to count backward from 10 by 1s.
7	Marked difficulty counting forwards to 10 by 1s.

SCORE	ADULT-RECENT MEMORY. Ask "What did you do last weekend? What did you have for breakfast? What is the weather like today? Who is the president, the governor, etc."
1	No objective or subjective evidence of a deficit in recent memory.
2	Subjective impairment only (e.g., forgetting names more than formerly).
3	Deficit in recall of specific events evident upon detailed questioning. No deficit in recall of major recent events.
4	Cannot recall major events of previous weekend or week. Scanty knowledge (not detailed) of current events, favorite TV shows, etc.
5	Unclear of weather, may not know current President or current address.
6	Occasional knowledge of some events. Little or no idea of current address, weather, etc.
7	No knowledge of any recent events.

SCORE	ADULT-PAST MEMORY. Ask "What primary schools did you attend? Where is it located? Who were your primary teachers? Where were you born? Who were your childhood friends? What kind of things did you do with your childhood friends?"
1	No objective or subjective evidence of a deficit in past memory.
2	Subjective impairment only. Can recall two or more primary school teachers.
3	Some gaps in past memory upon detailed questioning. Able to recall at least one childhood teacher and/or one childhood friend.
4	Clear-cut deficit. The spouse recalls more of the patient's past than the patient. Cannot recall childhood friends and/or teachers but knows the names of most schools attended. Confuses chronology in reciting personal history.
5	Major past events are sometimes not recalled (e.g., names of schools attended).
6	Some residual memory of the past (e.g., may recall country of birth or former occupation).
7	No memory of past.

Brief Cognitive Rating Scale Guide
