Animation Masterclasses: From Pencils to Pixels Tony White, 2022-11-17 Today it is commonly believed that if you learn software you can become an animator Yet nothing could be further from the truth Master animators are trained and not born Software as is the humble pencil is merely yet another tool through which an animator can apply their knowledge However neither software nor pencils give you that knowledge nor do they do the work for you If you place a fully trained master animator on a computer or give them a pencil they'll astound you with their mastery However if you put a nontrained animator on a computer all you will have is a technician creating moving objects as you'll see all over YouTube and other video platforms This book teaches you exactly how to become a Master Animator whether you ultimately plan to use pencils computers drawing tablets or rigged characters It's a complete course being a collection of 48 masterclasses gleaned from the author's 50 years of experience of top level animating teaching and filmmaking It will also train you in the value and application of observational gesture drawing This book of masterclasses by a master of the art Tony White is entirely designed to be THE definitive reference book for students learning how to make things move well as well as how to create films once you know how to do so A book for everyone For home based self study students It is a perfect manual to take you from raw beginner to proven animated filmmaker For full time students It is an ideal companion to supplement your full time educational studies which no doubt is overly based on software technology For current animation professionals It is a comprehensive archive of animation tips and techniques that will enable you to take your work to the next level For current animation educators and instructors It is a book that can be the ultimate curriculum

and study program enabling your own students to become the master animators of today and tomorrow **Animation**

Behind the Iron Curtain Eleanor Cowen, 2020-09-22 *Animation Behind the Iron Curtain* is a journey of discovery into the world of Soviet era animation from Eastern Bloc countries From Jerzy Kucia's brutally exquisite *Reflections* in Poland to the sci fi adventure of *Ott in Space* by Estonian puppet master Elbert Tuganov to the endearing *Gopo's little man* by Ion Popescu Gopo in Romania this excursion into Soviet era animation brings to light magnificent art ruminations on the human condition and celebrations of innocence and joy As art reveals the spirit of the times animation art of Eastern Europe during the Cold War funded by the Soviet states allowed artists to create works illuminating to their experiences hopes and fears The political ideology of the time ironically supported these artists while simultaneously suppressing more direct critiques of Soviet life Politics shaped the world of these artists who then fashioned their realities into amazing works of animation Their art is integral to the circumstances in which they lived which is why this book combines the unlikely combination of world politics and animated cartoons The phenomenal animated films shared in this book offer a glimpse into the culture and hearts of Soviet citizens who grew up with characters as familiar and beloved to them as Mickey Mouse and Bugs Bunny are to Americans This book lays out the basic political dynamics of the Cold War and how those political tensions affected the animation industry in both the US and in the Eastern Bloc And for animation novices and enthusiasts alike *Animation Behind the Iron Curtain* also offers breakout sections to explain many of the techniques and aesthetic considerations that go into this fascinating art form This book is a must read for anyone interested in the Cold War era and really cool animated films
