Junior Graphic Mavis Kitcher (Mrs),2014-09-17 *Daily Graphic* Ransford Tetteh,2014-09-12 *Changing the Grade* Jonathan Cornue,2017-01-23 Many educators agree that the 100 point grading model is not always a reliable way to evaluate student learning But is there another way to more accurately and equitably grade students and provide high quality information to parents while fostering student learning If so why haven t school districts across the country changed their practices In *Changing the Grade* author and educator Jonathan Cornue presents a detailed model for developing a more reliable standards based grading system including 30 steps to guide you through the process In addition to identifying and addressing the barriers to change such as concerns about how colleges and employers will interpret an alternative grading model Cornue offers a concrete structure for changing the grading system providing guidance on Thinking in a new way about why grades are given and the purpose of a report card grade Identifying what needs to be changed and what actions must be taken to facilitate the change Building a team of stakeholders including teachers principals and guidance counselors to lead the change process Developing the new standards based grading structure Designing standards based assignments and assessments that align with a new grading structure Avoiding grade inflation and Getting buy in from teachers and other staff members principals administrators the board of education and the community by demonstrating that the change process is intentional research based student focused and permanent The book also includes helpful samples of standards based gradebooks homework assignments rubrics and report cards If you are interested in making a systemic and systematic shift to a high quality grading structure that is far less subjective than many commonly found in schools consider *Changing the Grade* *Grading for Impact* Tom Hierck,Garth L. Larson,2018 Aim for a target based grading system and create stronger learning opportunities Do you wish there was more clarity when it comes to measuring student progress and learning What if there was a way to utilize grading and assessment to focus on learning rather than performance and the process rather than the product As grading assessment and reporting continue to be relevant topics of discussion this book helps you create a functional plan to elevate and advance standards based grading practices Teachers and administrators will learn how to assess grade and report against specific learning targets rather than standards as a whole to make skill acquisition the highest priority Grounded in application to provide focus and clarity this book features Real case studies of schools that have incorporated target based assessment feedback grading and reporting Practical examples to guide implementation Questions checklists illustrations and audits of practice to showcase the work in action An accessible format and layout that support both immediate implementation and long term goals Despite being a topic that generates emotion and resistance to change target based assessment builds the foundation for a learner centered system that provides clear expectations and feedback for teachers students and parents *Grading for Impact* is a simple and straightforward guide to re thinking grading based on mastery of specific skills and concepts rather than broadly written standards Real world examples of teachers struggling with

and answering the old questions are included How do we grade fairly and accurately and How do we use grades as an instructional strategy Joseph Staub High School Teacher Downtown Magnets High School CA Most stakeholders agree that report cards aren't enough to show what our students are learning in school but changing the traditional grading system is a task that requires careful planning and challenging discussions Grading for Impact shows educators how to start and plan the discussions that will result in genuine learning experiences for students Ernie Rambo Virtual Learning Community Coordinator Nevada National Board Professional Learning Institute
