Breast Cancer For Dummies:

Breast Cancer For Dummies Ronit Elk, Monica Morrow, 2011-05-04 If you or someone you love has been diagnosed with breast cancer you're probably confused, afraid, shocked, or even angry. Or you may be all of the above. Let this book become your trusted manual. Discover more about the cancer, explore treatment options, find ways to make this part of your life easier. Let shared experiences serve as your knowledgeable guide and anchor to help you make wise and confident choices. Think of breast cancer as a journey and this book as your roadmap. Have you already been diagnosed? In that case, this book can help you explore these important truths. Breast cancer is not a death sentence. Most women diagnosed with early stage breast cancer can look forward to enjoying a healthy full life. Not only are you unique as a person, but so too is your particular form of cancer, your treatment options, and your prognosis. Every day more is discovered about how to prevent, detect earlier, and more effectively treat breast cancer. You are not alone. More than two million women in the United States today are breast cancer survivors. Thousands of groups and programs across the country offer support, and chances are one is close to your neighborhood. All the information in this book is based on the most recent research findings, the clinical expertise of oncologists, and the invaluable experiences of the women who have walked this road before. **Breast Cancer For Dummies** covers all of the following topics and more in simple, easy-to-understand terms: Coming to grips with breast cancer; Decoding your pathology report; Finding the right treatment for you; Rekindling intimacy after treatment; Health insurance and money woes; Talking to children about breast cancer. This book can help you feel like you have a sister who's a doctor, a sister who tells you what to expect every step of the way, who gives you the best advice she can, and guides you along the way. Of course, there is absolutely no replacement for advice about you from your own doctor. You'll feel empowered to know and understand what's going on in your body so that you can become a part of your own treatment team and make decisions along with your doctors and your family.

Detecting & Living with Breast Cancer For Dummies Marshalee George, Kimlin Tam Ashing, 2017-08-14 Your trusted no-nonsense guide to detecting and managing breast cancer. From the breast health experts at the American Breast Cancer Foundation comes a sensitive and authoritative guide to the most common cancer in women: breast cancer. Covering everything from prevention to dealing with a diagnosis to coping with life after cancer, it serves as a trusted resource for anyone whose life has been touched by this dreaded disease. Advancements in breast cancer prevention, detection, and treatment are being made every day, but it can be overwhelming and confusing knowing where to turn and who to trust. **Detecting & Living with Breast Cancer For Dummies** distills the information into one easy-to-follow guide, giving you quick expert advice on everything you'll face as you manage your breast health. From getting to know your treatment options to talking to loved ones about breast cancer and everything in between, it does the legwork for you so you can take a deep breath and focus on your health. Perform regular self-exams the right way. Cope with the many decisions that need to be made if you're diagnosed. Ask the right questions about surgery, chemotherapy, radiation, and breast reconstruction. Decipher

complicated pathology reports with confidence Whether you re at risk for breast cancer or have been diagnosed and want to know your options Detecting Living with Breast Cancer For Dummies empowers you to take your health into your own hands

Why Software Sucks-- and what You Can Do about it David S. Platt,2007 I ve just finished reading the best computer book Why Software Sucks since I last re read one of mine and I wanted to pass along the good word Put this one on your must have list if you have software love software hate programmers or even ARE a programmer because Mr Platt who teaches programming has set out to puncture the bloated egos of all those who think that just because they can write a program they can make it easy to use This book is funny but it is also an important wake up call for software companies that want to reduce the size of their customer support bills If you were ever stuck for an answer to the question Why do good programmers make such awful software this book holds the answer John McCormick Locksmith columnist TechRepublic com I must say first I don t get many computing manuscripts that make me laugh out loud Between the laughs Dave Platt delivers some very interesting insight and perspective all in a lucid and engaging style I don t get much of that either Henry Leitner assistant dean for information technology and senior lecturer on computer science Harvard University A riotous book for all of us downtrodden computer users written in language that we understand Stacy Baratelli author s barber David s unique take on the problems that bedevil software creation made me think about the process in new ways If you care about the quality of the software you create or use read this book Dave Chappell principal Chappell Associates I began to read it in my office but stopped before I reached the bottom of the first page I couldn t keep a grin off my face I ll enjoy it after I go back home and find a safe place to read Tsukasa Makino IT manager David explains in terms that my mother in law can understand why the software we use today can be so frustrating even dangerous at times and gives us some real ideas on what we can do about it Jim Brosseau Clarrus Consulting Group Inc A Book for Anyone Who Uses a Computer Today and Just Wants to Scream Today s software sucks There s no other good way to say it It s unsafe allowing criminal programs to creep through the Internet wires into our very bedrooms It s unreliable crashing when we need it most wiping out hours or days of work with no way to get it back And it s hard to use requiring large amounts of head banging to figure out the simplest operations It s no secret that software sucks You know that from personal experience whether you use computers for work or personal tasks In this book programming insider David Platt explains why that s the case and more importantly why it doesn t have to be that way And he explains it in plain jargon free English that s a joy to read using real world examples with which you re already familiar In the end he suggests what you as a typical user without a technical background can do about this sad state of our software how you as an informed consumer don t have to take the abuse that bad software dishes out As you might expect from the book s title Dave s expose is laced with humor sometimes outrageous but always dead on You ll laugh out loud as you recall incidents with your own software that made you cry You ll slap your thigh with the same hand that so often pounded your computer desk and wished it was a bad programmer s face But Dave hasn t written this book just for

laughs He's written it to give long overdue voice to your own discovery that software does indeed suck but it shouldn't

Breast Cancer For Dummies Introduction

In today's digital age, the availability of Breast Cancer For Dummies books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Breast Cancer For Dummies books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Breast Cancer For Dummies books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Breast Cancer For Dummies versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Breast Cancer For Dummies books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Breast Cancer For Dummies books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Breast Cancer For Dummies books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a nonprofit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts

millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Breast Cancer For Dummies books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Breast Cancer For Dummies books and manuals for download and embark on your journey of knowledge?
