A Scream Goes Through The House What Literature Teaches Us About Life:

A Scream Goes Through the House Arnold Weinstein, 2007-12-18 For too long we have been encouraged to see culture as an affair of intellect and reading as a solitary exercise But the truth is different literature and art are pathways of feeling and our encounter with them is social inscribing us in a larger community Through art we discover that we are not alone So writes the esteemed Brown University professor Arnold Weinstein in this brilliant radical exploration of Western literature In the tradition of Harold Bloom and Jacques Barzun Weinstein guides us through great works of art to reveal how literature constitutes nothing less than a feast for the heart Our encounter with literature and art can be a unique form of human connection an entry into the storehouse of feeling Writing about works by Sophocles Shakespeare Dickens Charlotte Bront Munch Proust O Neill Burroughs DeLillo Tony Kushner Toni Morrison and others Weinstein explores how writers and artists give us a vision of what human life is really all about Reading is an affair of the heart as well as of the mind deepening our sense of the fundamental forces and emotions that govern our lives including fear pain illness loss depression death and love Provocative beautifully written essential *A Scream Goes Through the House* traces the human cry that echoes in literature through the ages demonstrating how intense feelings are heard and shared With intellectual insight and emotional acumen Weinstein reveals how the scream that resounds through the house of literature history the body and the family shows us who we really are and joins us together in a vast and timeless community

The Imaginative Argument Frank L. Cioffi, 2017-12-11 More than merely a writing text *The Imaginative Argument* offers writers instruction on how to use their imaginations to improve their prose Cioffi shows writers how they can enliven argument the organizing rubric of all persuasive writing by drawing on emotion soul and creativity the wellsprings of imagination While Cioffi suggests that argument should become a natural habit of mind for writers he goes still further inspiring writers to adopt as their gold standard the imaginative argument the surprising yet strikingly apt insight that organizes disparate noises into music that makes out of chaos chaos theory Rather than offering a model of writing based on established formulas or templates Cioffi urges writers to envision argument as an active parsing of experience that imaginatively reinvents the world Cioffi s manifesto asserts that successful argument also requires writers to explore their own deep seated feelings to exploit the fuzzy but often profoundly insightful logic of the imagination But expression is not all that matters Cioffi s work anchors itself in the actual Drawing on Louis Kahn s notion that a good architect never has all the answers to a building s problems before its physical construction Cioffi maintains that in argument too answers must be forged along the way as the writer inventively deals with emergent problems and unforeseen complexities Indeed discovery imagination and invention suffuse all stages of the process *The Imaginative Argument* offers all the intellectual kindling that writers need to ignite this creativity from insights on developing ideas to avoiding bland assertions or logical leaps It cites exemplary nonfiction prose stylists including William James Ruth Benedict and Erving Goffman as well as literary sources to demonstrate the dynamic of

persuasive writing Provocative and lively it will prove not only essential reading but also inspiration for all those interested in arguing more imaginatively more successfully This edition features new chapters that cover the revision process in greater depth as well as the particular challenges of researching and writing in the digital age such as working with technology and avoiding plagiarism The book also includes new sample essays an appendix to help instructors use the book in the classroom and much more

Teaching Beauty in DeLillo, Woolf, and Merrill J. Green-Lewis, M. Soltan, 2008-04-14 What happened to beauty How did the university literature classroom turn into a seminar on politics Focusing on such writers as Don DeLillo Virginia Woolf and James Merrill this book examines what has been lost to literature as a discipline and to literary criticism as a practice as a result of efforts to reduce the aesthetic to the ideological Green Lewis and Soltan celebrate the return of beauty as a subject in its own right to literary studies a return all the more urgent given beauty's ability to provide not merely consolation but a sense of order and control in the context of a threatening political world Humanities, 2002

Subversive Seduction Travis Landry, 2013-01-10 Male male rivalry and female passive choice the two principal tenets of Darwinian sexual selection raise important ethical questions in *The Descent of Man* and in the decades since about the subjugation of women If female choice is a key component of evolutionary success what impact does the constraint of women's choices have on society The elaborate courtship plots of 19th century Spanish novels with their fixation on suitors and selectors rivalry and seduction were attempts to grapple with the question of female agency in a patriarchal society By reading Darwin through the lens of the Spanish realist novel and vice versa Travis Landry brings new insights to our understanding of both while Darwin's theories have often been seen as biologically deterministic Landry asserts that Darwin's theory of sexual selection was characterized by an open ended dynamic whose oxymoronic emphasis on passive female choice carries the potential for revolutionary change in the status of women

Building the Moral Community David W. Chambers, 2016-08-08 *Building the Moral Community* Radical Naturalism and Emergence demonstrates how very simple models of moral engagements based on natural incomplete value laden frames of the world can lead to general moral progress for the human community All moral behavior affects more than one person which means that the moral community is more than the sum of the individuals included in it David W Chambers argues that there is no ethically detached and superior position from which to operate and that such claims are focused on ethics not on acting morally Therefore he cautions against mistaking theories of ethics composed on statements about what is good and right for actual moral behavior that moves broadly and inevitably toward a better world This book explores naturalistic ethics offering a modified classical analytic philosophy exploration of morality that is consistent with emerging thinking in psychology neurobiology game theory and self adjusting systems
