Leadbeater,2009-03-03 **A Textbook of Theosophy** C. Leadbeater,2016-06-15 Contents What Theosophy is From the Absolute to Man Formation of a Solar System Evolution of Life Constitution of Man After Death Reincarnation Purpose of Life Planetary Chains Result of Theosophical Study We often speak of Theosophy as not in itself a religion but the truth which lies behind all religions alike That is so yet from another point of view we may surely say that it is at once a philosophy a religion and a science It is a philosophy because it puts plainly before us an explanation of the scheme of evolution of both the souls and the bodies contained in our solar system It is a religion in so far as having shown us the course of ordinary evolution it also puts before us and advises a method of shortening that course so that by conscious effort we may progress more directly towards the goal It is a science because it treats both these subjects as matters not of theological belief but of direct knowledge obtainable by study and investigation It asserts that man has no need to trust to blind faith because he has within him latent powers which when aroused enable him to see and examine for himself and it proceeds to prove its case by showing how those powers may be awakened It is itself a result of the awakening of such powers by men for the teachings which it puts before us are founded upon direct observations made in the past and rendered possible only by such development As a philosophy it explains to us that the solar system is a carefully ordered mechanism a manifestation of a magnificent life of which man is but a small part Nevertheless it takes up that small part which immediately concerns us and treats it exhaustively under three heads present past and future *A Textbook of Theosophy* Charles Webster Leadbeater,1918 *Textbook of Theosophy* Charles Webster Leadbeater,Wynn Wagner,2012-05-20 Theosophy is a technique from the 1600s that showed quite a bit of interest in esoteric circles of the twentieth century The theosophist seeks to understand the mysteries of the universe and the bonds that unite the universe humanity and the divine The goal of theosophy is to explore the origin of divinity and humanity and the end of world life and humanity From investigation of those topics theosophists try to discover a coherent description of the purpose and origin of the universe We often speak of Theosophy as not in itself a religion but the truth which lies behind all religions alike As a philosophy it explains to us that the solar system is a carefully ordered mechanism a manifestation of a magnificent life of which man is but a small part Nevertheless it takes up that small part which immediately concerns us and treats it exhaustively under three heads present past and future *A Textbook of Theosophy* C.W.
