The British Library General Catalogue of Printed Books 1976 to 1982 British Library, 1983 **The Academy**, 1901 *James Joyce Quarterly*, 1965 *British Books in Print*, 1985 *The New Georgics* Liesbeth Korthals Altes, Manet van Montfrans, 2002 The human condition in rural provincial locations is once again gaining status as a subject of European high fiction after several decades in which it was dismissed on aesthetic and ideological grounds This volume is one of the first attempts to investigate perspectives on local cultures values and languages both systematically and in a European context It does so by examining the works of a variety of authors including Hugo Claus Llamazares Bergounioux and Millet Buffalino and Consolo and also several Soviet authors who paint a grim picture of a collectivized and thus ossified rurality How do these themes relate to the ongoing trend of globalization How do these works which are often experimental connect in their form topics language and ideological subtext to the traditional rural or regional genres Far from naively celebrating a lost Eden most of these new Georgics reflect critically on the tensions in contemporary peripheral rural or regional cultures to the point of parodying the traditional topoi and genres This book is of interest to those wishing to reflect on the dynamics and conflicts in contemporary European rural culture **The Scientific Sublime** Alan G. Gross, 2018-06-01 The sublime evokes our awe our terror and our wonder Applied first in ancient Greece to the heights of literary expression in the 18th century the sublime was extended to nature and to the sciences enterprises that viewed the natural world as a manifestation of God's goodness power and wisdom In *The Scientific Sublime* Alan Gross reveals the modern day sublime in popular science He shows how the great popular scientists of our time Richard Feynman Stephen Hawking Steven Weinberg Brian Greene Lisa Randall Rachel Carson Stephen Jay Gould Steven Pinker Richard Dawkins and E O Wilson evoke the sublime in response to fundamental questions How did the universe begin How did life How did language These authors maintain a tradition initiated by Joseph Addison Edmund Burke Immanuel Kant and Adam Smith towering 18th century figures who adapted the literary sublime first to nature then to science though with one crucial difference religion has been replaced wholly by science In a final chapter Gross explores science's attack on religion an assault that attempts to sweep permanently under the rug two questions science cannot answer What is the meaning of life What is the meaning of the good life **British Paperbacks in Print**, 1984 *The Theory and Practice of Reception Study* Philip Goldstein, 2022-04-21 This book examines novels of Faulkner and Morrison as well as Mark Twain and Ralph Ellison in order to show that their works forcefully undermine the racial and sexual divisions characterizing both the South and contemporary culture in the nineteenth and twentieth centuries Moreover the book discusses theories of reader response and reception study and elaborates a theory of reception study based on the historical or archeological methods of Michel Foucault As a consequence unlike most studies of American literature which discuss its historical contexts or prescribe its readers responses this book explains the reception of these works including the academic criticism and reviews and because the internet exerts immense

influence in the twenty first century the on line responses of ordinary readers Unlike most reception studies this book examines the institutional contexts of the readers responses **Music, Popular Culture, Identities** Richard A.
