Unbecoming Scott Baron, James Wise, Jr., 2016-03-18 Men and women who serve in the armed forces are subject to a different legal code than those they protect Throughout American history some have through action or failure to act or by circumstances found themselves facing prosecution by the United States military One measure of a nation s sense of justice is how it treats those who surrender some of their rights to defend the rights of fellow citizens Beginning with the first court martial predating the nation itself and continuing to the recent wars in Iraq and Afghanistan and the War on Terror this book examines the proceedings of 15 courts martial that raised such important legal questions as When does advocacy become treason Who bears ultimate responsibility when troops act illegally What are the limits in protesting injustice The defendants include such familiar names as Paul Revere and William Calley The authors examine such overlooked cases as the Somers Mutiny the trial of the San Patricios and the Port Chicago Mutiny These trials demonstrate that guaranteeing military justice especially in the midst of armed conflict is both a challenge and a necessity in a free society **Valor of Many Stripes**

courage and self sacrifice occur on the battlefield but are often obscured in the fog of battle or lost to history unrecognized and unheralded The largely overlooked men and women in this volume did incredible things in dire circumstances Although in some cases decorations were awarded including several Medals of Honor their stories remain unknown The United States Aircraft Carrier America (CVA-66) ... America's First Aircraft Carrier David F Winkler, 2024-02-15

America's First Aircraft Carrier tells the remarkable story of the USS Langley The narrative provides an in depth discussion of the ship's origins as the collier USS Jupiter which was built with a first of propulsion system that has been adapted for use in present day Ford class carriers

Author David F Winkler considers the post World War I debate for procuring carriers the decision to convert Jupiter and the identification of constructor Clayton Simmers as the father of the American aircraft carrier

The evolution of the Langley as an experimental ship was tied to the introduction of new doctrine for the United States Promoting an independent naval air arm against Brig Gen Billy Mitchell's vision of an independent air force

The U S Navy saw Langley as an operational aircraft carrier that would change the way the Navy fought wars at sea

While the story of Langley is that of the origins of naval air combat it is also a record of the vessel's service in World War II until the ship's final posting to the Asiatic Fleet where she met her demise on February 27 1942 off the southern coast of Java

Many of the U S Navy's pioneering naval aviators are closely associated with this ship including Kenneth Whiting John H Towers Godfrey DeCourcelles Chevalier Virgil C Griffith Mel Pride Patrick N L Bellinger Joseph M Reeves Gerald Bogan Aubrey Fitch Felix Stump Ernest J King Warren G Child Dan Gallery and Frank D Wagner

A number of these individuals would go on to play critical roles during World War II
