A Small Town Near Auschwitz Ordinary Nazis And The Holocaust:

A Small Town Near Auschwitz Mary Fulbrook, 2012-09-20 The story of a small town near Auschwitz and of its local Nazi administrator An ordinary functionary and family man without whose help and those of thousands like him the murderous plans of the Nazi elite could never have been fully realized **European Mennonites and the Holocaust** Mark

Confronting Humanity at Its Worst Leonard S. Newman, 2020 How do otherwise ordinary people become perpetrators of genocide Why are groups targeted for mass killing How do groups justify these terrible acts While there are no easy answers to these questions social psychologists are especially well positioned to contribute to our understanding of genocide and mass killing With research targeting key questions such as how negative impressions of outgroups develop and how social influence can lead people to violate their moral principles and other norms social psychologists have much to teach us about why groups of people attempt to exterminate other groups why people participate in such atrocious projects and how they live with themselves afterwards By bringing together research previously available only to readers of academic journals this volume sheds crucial light on human behavior at the extremes and in doing so helps us take one more step towards preventing future tragedies *Minority Report* Leonard G. Friesen, 2018-01-01 In *Minority Report* Leonard G Friesen and the volume s contributors boldly reassess Mennonite history in Imperial Russia and the former Soviet Ukraine **Probing**

Stanford University When it comes to historical violence and contemporary inequality none of us are completely innocent We may not be direct agents of harm but we may still contribute to inhabit or benefit from regimes of domination that we neither set up nor control Arguing that the familiar categories of victim perpetrator and bystander do not adequately account for our connection to injustices past and present Michael Rothberg offers a new theory of political responsibility through the figure of the implicated subject *The Implicated Subject* builds on the comparative transnational framework of Rothberg s influential work on memory to engage in reflection and analysis of cultural texts archives and activist movements from such contested

The Complexity of Evil Timothy Williams,2020-12-18 Why do people participate in genocide Timothy Williams presents an interdisciplinary model that shows how complex and diverse but also how ordinary and mundane most motivations for participating in genocide are The book draws on empirical examples from the Holocaust and Rwanda and introduces new data from interviews with perpetrators of genocide in Cambodia
