A Very Remarkable Sickness A Very Remarkable Sickness:

A Very Remarkable Sickness Paul Hackett, 2002-06 The area between the Great Lakes and Lake Winnipeg bounded on the north by the Hudson Bay lowlands is sometimes known as the Petit Nord Providing a link between the cities of eastern Canada and the western interior the Petit Nord was a critical communication and transportation hub for the North American fur trade for over 200 years Although new diseases had first arrived in the New World in the 16th century by the end of the 17th century shorter transoceanic travel time meant that a far greater number of diseases survived the journey from Europe and were still able to infect new communities These acute directly transmitted infectious diseases including smallpox influenza and measles would be responsible for a monumental loss of life and would forever transform North American Aboriginal communities Historical geographer Paul Hackett meticulously traces the diffusion of these diseases from Europe through central Canada to the West Significant trading gatherings at Sault Ste Marie the trade carried throughout the Petit Nord by Hudson Bay Company ships and the travel nexus at the Red River Settlement all provided prime breeding ground for the introduction incubation and transmission of acute disease Hackett's analysis of evidence in fur trade journals and oral history combined with his study of the diffusion behaviour and characteristics of specific diseases yields a comprehensive picture of where when and how the staggering impact of these epidemics was felt

Muskegowuck Athinuwick Victor P. Lytwyn, 2002-03-06 The original people of the Hudson Bay lowlands often known as the Lowland Cree and known to themselves as Muskegowuck Athinuwick were among the first Aboriginal peoples in northwestern North America to come into contact with Europeans Muskegowuck Athinuwick challenges long held

misconceptions about the Lowland Cree and illustrates how historians have often misunderstood the role and resourcefulness of Aboriginal peoples during the fur trade era. Although their own oral histories tell that the Lowland Cree have lived in the region for thousands of years, many historians have portrayed the Lowland Cree as relative newcomers who were dependent on the Hudson's Bay Company fur traders by the 1700s. In *Muskegowuck Athinuwick*, historical geographer Victor Lytwyn shows instead that the Lowland Cree had a well-established traditional society that far from being dependent on Europeans was instrumental in the survival of traders throughout the network of HBC forts during the 18th and 19th centuries.

Encounters at the Heart of the World Elizabeth A. Fenn, 2014-03-11 *Encounters at the Heart of the World* concerns the Mandan Indians, iconic Plains people whose teeming busy towns on the upper Missouri River were for centuries at the center of the North American universe. We know of them mostly because Lewis and Clark spent the winter of 1804-1805 with them, but why don't we know more? Who were they really? Elizabeth A. Fenn retrieves their history by piecing together important new discoveries in archaeology, anthropology, geology, climatology, epidemiology, and nutritional science. By 1500, more than twelve thousand Mandans were established on the northern Plains, and their commercial prowess, agricultural skills, and reputation for hospitality became famous. Recent archaeological discoveries show how they thrived and then how they collapsed. The damage wrought by imported diseases like smallpox and the havoc caused by the arrival of horses and steamboats were tragic for the Mandans, yet as Fenn makes clear, their sense of themselves as a people with distinctive traditions endured. Clearing the Plains James William Daschuk, 2013 In arresting but harrowing prose, James Daschuk examines the roles that Old World diseases, climate, and most disturbingly, Canadian politics, the politics of ethnocide, played in the deaths and subjugation of thousands of Aboriginal people in the realization of Sir John A. Macdonald's National Dream. It was a dream that came at great expense: the present disparity in health and economic well-being between First Nations and non-Native populations and the lingering racism and misunderstanding that permeates the national consciousness to this day. *Clearing the Plains* is a tour de force that dismantles and destroys the view that Canada has a special claim to humanity in its treatment of Indigenous peoples. Daschuk shows how infectious disease and state-supported starvation combined to create a creeping, relentless catastrophe that persists to the present day. The prose is gripping; the analysis is incisive, and the narrative is so chilling that it leaves its reader stunned and disturbed. For days after reading it, I was unable to shake a profound sense of sorrow. This is fearless, evidence-driven history at its finest. Elizabeth A. Fenn, author of *Pox Americana*. Required reading for all Canadians. Candace Savage, author of *A Geography of Blood*. Clearly written, deeply researched, and properly contextualized history. Essential reading for everyone interested in the history of Indigenous North America. J. R. McNeill, author of *Mosquito Empires*.

The Company Stephen R. Bown, 2020 NATIONAL BESTSELLER A thrilling new telling of the story of modern Canada's origins. The story of the Hudson's Bay Company, dramatic and adventurous and complex, is the story of modern Canada's creation. And yet it hasn't been told in a book for over thirty years.

and never in such depth and vivid detail as in Stephen R Bown's exciting new telling The Company started out small in 1670 trading practical manufactured goods for furs with the Indigenous inhabitants of inland subarctic Canada Controlled by a handful of English aristocrats it expanded into a powerful political force that ruled the lives of many thousands of people from the lowlands south and west of Hudson Bay to the tundra the great plains the Rocky Mountains and the Pacific northwest It transformed the culture and economy of many Indigenous groups and ended up as the most important political and economic force in northern and western North America When the Company was faced with competition from French traders in the 1780s the result was a bloody corporate battle the coming of Governor George Simpson one of the greatest villains in Canadian history and the Company assuming political control and ruthless dominance By the time its monopoly was rescinded after two hundred years the Hudson's Bay Company had reworked the entire northern North American world Stephen R Bown has a scholar's profound knowledge and understanding of the Company's history but wears his learning lightly in a narrative as compelling and rich in well drawn characters as a page turning novel
