Christianity and Violence Lloyd Steffen, 2021-05-20 How Christian people have framed the meaning of violence within their faith tradition has been a complex process subject to all manner of historical cultural political ethnic and theological contingencies As a tradition encompassing widely divergent beliefs and perspectives Christianity has over two millennia adapted to changing cultural and historical circumstances To grasp the complexity of this tradition and its involvement with violence requires attention to specific elements explored in this Element the scriptural and institutional sources for violence the faith commitments and practices that join communities and sanction both resistance to and authorization for violence and select historical developments that altered the power wielded by Christianity in society culture and politics Relevant issues in social psychology and the moral action guides addressing violence affirmed in Christian communities provide a deeper explanation for the motivations that have led to the diverse interpretations of violence avowed in the Christian tradition

Holy War, Holy Peace Marc Gopin, 2002-04-11 The Intifada of 2000 2001 has demonstrated the end of an era of diplomacy in the Arab Israeli conflict The style of peacemaking of the Oslo Accords has been called into question by the facts on the ground Elite forms of peacemaking that do not embrace the basic needs of average people on all sides are bound to fail The complete neglect of deeper cultural and religious systems in the peace process is now apparent as is the role that this neglect has played in the failure of the process Building on his earlier book *Between Eden and Armageddon* Gopin provides a detailed blueprint of how the religious traditions in question can become a principal asset in the search for peace and justice He demonstrates how religious people can be the critical missing link in peacemaking and how the incorporation of their values and symbols can unleash a new dynamic that directly addresses basic issues of ethics justice and peace Gopin's analysis of the theoretical theological and political planes shows us what has been achieved thus far as well as what must be done next in order to ensure effective final settlement negotiations and secure sovereign democratic countries for both peoples
