At The Intersection Of Indigenous And Traditional Knowledge And Technology Design:

At the Intersection of Indigenous and Traditional Knowledge and Technology Design Nicola Bidwell, Heike Winschiers-Theophilus, 2015 There is intensified interest in designing information and communication technologies ICTs that respond to ways of doing knowing and saying that differ from those that dominate in producing ICTs and in particular to traditional or indigenous knowledges ICT endeavours for indigenous or traditional knowledges ITK vary Some aim to extend ITK digitally and others use ICTs to improve the economic and or political situation of marginalised groups This book presents themes that arise in designing to respond to ITK in different cultural social physical and historical contexts

Sense, Feel, Design Carmelo Ardito, Rosa Lanzilotti, Alessio Malizia, Marta Larusdottir, Lucio Davide Spano, José Campos, Morten Hertzum, Tilo Mentler, José Abdelnour Nocera, Lara Piccolo, Stefan Sauer, Gerrit van der Veer, 2022-03-19 This book contains a series of revised papers selected from 7 workshops organized by 18th IFIP TC 13 International Conference on Human Computer Interaction INTERACT 2021 which was held in September 2021 in Bari Italy The 15 papers included in this volume were carefully reviewed and selected from 30 submissions They show the design of interactive technologies addressing one or more United Nations Sustainable Development Goals to deal with evolving contexts of use in today's and future application domains and its influence on human centered socio technical system design and development practice share educational resources and approaches to support the process of teaching and learning HCI Engineering HCI E share educational resources and approaches to support the process of teaching and learning HCI Engineering HCI E and address and discuss geopolitical issues in Human Computer Interaction as a field of knowledge and practice Chapter Extreme Citizen Science Contributions to the Sustainable Development Goals Challenges and Opportunities for a Human Centred Design Approach is available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com)

ICT and International Learning Ecologies Ian A. Lubin, 2021-06-21 Winner of the Outstanding Publication Award Book by AECT's Culture Learning and Technology Division ICT and International Learning Ecologies addresses new ways to explore international comparative and cultural issues in education and technology As today's development orthodoxies push societies around the world to adopt imported information communication tools new approaches are needed that integrate cultural responsiveness autonomy and sustainability into technology enhanced learning This edited collection conceptually and methodologically reframes the complexities of teaching and learning in historically marginalized communities around the world where inequities are often exacerbated by one size fits all programs Graduate students and researchers of educational technology international comparative education and sustainability education will be better prepared to lead information and communication technologies ICT implementation across a range of contexts and learner identities

Digitisation of Culture: Namibian and International Perspectives Dharm Singh Jat, Jürgen Sieck, Hippolyte N'Sung-Nza Muyingi, Heike Winschiers-Theophilus, Anicia Peters, Shawulu Nggada, 2018-05-09 This book explores the digitization of culture as a means of

experiencing and understanding cultural heritage in Namibia and from international perspectives It provides various views and perspectives on the digitization of culture the goal being to stimulate further research and to rapidly disseminate related discoveries Aspects covered here include virtual and augmented reality audio and video technology art multimedia and digital media integration cross media technologies modeling visualization and interaction as a means of experiencing and grasping cultural heritage Over the past few decades digitization has profoundly changed our cultural experience not only in terms of digital technology based access production and dissemination but also in terms of participation and creation and learning and partaking in a knowledge society Computing researchers have developed a wealth of new digital systems for preserving sharing and interacting with cultural resources The book provides important information and tools for policy makers knowledge experts cultural and creative industries communication scientists professionals educators librarians and artists as well as computing scientists and engineers conducting research on cultural topics **Culture, Technology,**

Communication. Common World, Different Futures José Abdelnour-Nocera, Michele Strano, Charles Ess, Maja Van der Velden, Herbert Hrachovec, 2016-11-26 This volume constitutes the refereed post conference proceedings of the 10th IFIP WG 13.8 International Conference on Culture Technology and Communication CaTaC 2016 held in London UK in June 2016 The 9 revised full papers were carefully reviewed and selected from 22 submissions The papers explore the intersections between culture technology and communication applying different theoretical and methodological perspectives genres and styles They deal with cultural attitudes towards technology and communication interaction design and international development *African Science Education* Jamaine Abidogun, 2018-03-15 Based on interrogation and review of historical

and current cultural and indigenous knowledge combined with extensive curriculum and classroom analysis this book identifies how indigenous science gender roles may be utilized to provide a more gender balanced and indigenous centered learning experience The book argues for the integration of African indigenous science into the secondary school curriculum as a way to strengthen students science comprehension by affirming their society's science contributions making clear connections between Indigenous and Western science and also as a way to promote female representation in the sciences This book will be of interest to scholars and practitioners of science education African education and indigenous knowledge

Information and Technology Literacy: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2017-08-30 People currently live in a digital age in which technology is now a ubiquitous part of society It has become imperative to develop and maintain a comprehensive understanding of emerging innovations and technologies Information and Technology Literacy Concepts Methodologies Tools and Applications is an authoritative reference source for the latest scholarly research on techniques trends and opportunities within the areas of digital literacy Highlighting a wide range of topics and concepts such as social media professional development and educational applications this multi volume book is ideally designed for academics technology developers researchers students practitioners and

professionals interested in the importance of understanding technological innovations The Palgrave Handbook of Breakthrough Technologies in Contemporary Organisations Mahmoud Moussa, Adela McMurray, 2025-03-08 This handbook traverses the broad spectrum of ICT management engaging readers to consider not only the beneficial transformations triggered by these technologies but also the organisational challenges they present From the disruption brought about by machine learning to the vast opportunities unleashed by the evolution of big data analytics to the revolution of financial technology FinTech this handbook offers a thorough and comprehensive journey through the landscape of ICT The focus is not solely on the breakthrough technologies themselves but the intricate patterns of their evolution adoption management and the subsequent ripples they create in the organisational fabric The handbook challenges current views provokes new insights and inspires a futuristic view of managing ICT in the ever evolving business landscape **Resilience,**

Entrepreneurship and ICT Jantje Halberstadt, Jorge Marx Gómez, Jean Greyling, Tulimevava Kaunapawa Mufeti, Helmut Faasch, 2021-09-27 This book is based on the work of the YEEES Research Centre an international network of scientists from partner universities in Germany Mozambique Namibia and South Africa It presents inter and transdisciplinary research that explores different ways of understanding resilience an essential characteristic for systems organizations and people providing them with strength in the face of attacks and challenges and both enabling and fostering constant adaptation and improvement Building resilience to face today's ever changing societal and environmental realities requires unbiased research activities that transcend the borders of countries and academic disciplines alike The research addressed in this book thus is multidisciplinary and includes contributions to areas such as sustainable agriculture entrepreneurial ecosystems and smart communities as well as groundbreaking work on skills development and ICT education Highlighting the variety of research activities and their outcomes this book offers a valuable resource for researchers and practitioners in the fields of sustainable resilience development **Geographic Citizen Science Design** Artemis Skarlatidou, Muki Haklay, 2021-02-04

Little did Isaac Newton Charles Darwin and other gentlemen scientists know when they were making their scientific discoveries that some centuries later they would inspire a new field of scientific practice and innovation called citizen science The current growth and availability of citizen science projects and relevant applications to support citizen involvement is massive every citizen has an opportunity to become a scientist and contribute to a scientific discipline without having any professional qualifications With geographic interfaces being the common approach to support collection analysis and dissemination of data contributed by participants geographic citizen science is being approached from different angles Geographic Citizen Science Design takes an anthropological and Human Computer Interaction HCI stance to provide the theoretical and methodological foundations to support the design development and evaluation of citizen science projects and their user friendly applications Through a careful selection of case studies in the urban and non urban contexts of the Global North and South the chapters provide insights into the design and interaction barriers as well as on the lessons learned from

the engagement of a diverse set of participants for example literate and non literate people with a range of technical skills and with different cultural backgrounds Looking at the field through the lenses of specific case studies the book captures the current state of the art in research and development of geographic citizen science and provides critical insight to inform technological innovation and future research in this area

Getting the books **At The Intersection Of Indigenous And Traditional Knowledge And Technology Design** now is not type of challenging means. You could not lonesome going in the manner of ebook stock or library or borrowing from your friends to admission them. This is an entirely easy means to specifically get lead by on-line. This online declaration **At The Intersection Of Indigenous And Traditional Knowledge And Technology Design** can be one of the options to accompany you later having further time.

It will not waste your time. admit me, the e-book will utterly vent you extra event to read. Just invest tiny era to right of entry this on-line revelation **At The Intersection Of Indigenous And Traditional Knowledge And Technology Design** as competently as review them wherever you are now.
