Further details:

- The BlackBerry Playbook is a colour tablet, similar to the iPad. The screen is backlit, which allows for night reading but uses more battery power.
 - You will need to install updates onto this device periodically since it's a small computer. Tablets require more maintenance than dedicated eReaders (Kobo Touch, Sony Reader, etc.).
- This device can connect to wireless Internet, which allows you to buy eBooks and download them directly to your device. You can also browse the Internet, play games and download apps (applications).
 - You can buy eBooks online from the Kobo bookstore (first download the Kobo app), or you can download library eBooks for free from Electronic Library NB (see reverse for details).
- You will need to install free software on your device to manage your library eBooks and to facilitate the transferring of eBooks from the Electronic Library NB website to your device.

This device has a unique navigation system; once you figure it out it's easy to jump back and forth between screens.

Already Purchased a BlackBerry Playbook? Let's get started!

- For initial set-up, follow the directions in the **User Manual** that came with your device and download any necessary updates. The Playbook does not need a computer for its setup. It's all done through a Wi-Fi connection. It's a good idea to get to know all the basic functions of your device before trying more complex procedures.
- Go online and create an Adobe ID. This ID is for Digital Rights Management (DRM). It allows you to access the eBooks you have borrowed from the library while ensuring that copyright is respected. You will need to authorize your device with your Adobe ID (see reverse).
