Breaking The Code The New Science Of Beginning Reading And Writing:

Breaking the Code J. Richard Gentry, 2006 If only we could understand that seemingly inexplicable moment when children suddenly get reading Then our instruction could be directed toward creating those specific circumstances which help every student recognize the pattern of meaning behind the marks on a page Now thanks to Richard Gentry's *Breaking the Code* we can In his most important book to date Gentry combines cutting edge brain based research with sound classroom knowledge to explore early literacy development Starting with the crucial interrelationship of reading and writing he looks inside and out at the minds of emerging readers to find out how they construct the idea and process of reading Then he presents a blueprint for instruction and early intervention that combines his new findings with best practice teaching His comprehensive instructional model focuses on building the specific skills capacities and experiences kids need by teaching them to write as they learn to read Gentry gives you everything you need to implement successful beginning reading strategies as well as a variety of effective tips for supporting readers and writers throughout the primary grades Writing with the same clarity and teacher friendly approach as in his best selling *The Science of Spelling* Richard Gentry will show you how scientific thinking and student centered teaching can work together to create powerful literacy instructional practices Let *Breaking the Code* open a window for you into the minds of young readers so that you can open a window for them into a world of literate possibilities

[Research-based Instructional Practices of Effective Principals](#) C. Steven Bingham, Paula Egelson, Karen L. Sanzo, 2018-06-01 Extant literature on evidence based instructional strategies mediated by elementary and secondary school leaders is surprisingly scant Seeking to fill the gap the editors of this book have curated the research and craft knowledge of eminent and emergent practitioner scholars who collectively provide a starting place for aspiring and practicing principals Each author builds on research based instructional practice in schools and districts in which they have worked either as principals or as school university or service provider partners They provide examples action plans frameworks lessons learned and strategies to successfully develop and implement research based instruction and supporting structures in schools and classrooms University principal preparation program planners public school district leaders and alternative leadership preparation providers will find this book eminently useful Similarly members of National Association of Elementary School Principals National Middle School Association National Association of Secondary School Principals University Council of Educational Administration Leadership for School Improvement Special Interest Group Learning and Teaching in Educational Leadership Special Interest Group and American Education Researchers Association Division A will find relevance to their work
