Introduction and Operation of the Apple Writer: A Word Processing Manual Lynn Marie Biagioni, 1985 It is expected that by the year 1990 most office records and correspondence will be transmitted viewed and stored on electronic media McCabe 1977 The responsibility of business educators is to provide students with marketable skills and to fulfill this responsibility computers and the instruction of word processing must be instituted in the classroom The fact that one half of the school districts in the United States are presently providing computer education is very misleading Business educators provide only 20 percent of this computer instruction while math and science constitute the remaining 80 percent Curly 1984 It is imperative to increase the computer instruction by business educators because 80 percent of all office computers in use are applied to business situations Curly 1984 The paucity of material currently available to integrate word processing is an obvious reflection of these statistics This project is designed to provide business educators with the necessary material to introduce word processing into the curriculum Instituting a word processing curriculum or unit of study into an existing course will not only benefit the students but this manual will enable the teachers to motivate the students the curriculum will contain more relevant subject matter and the community will be able to fulfill the job needs **The Electronic Text** William V. Costanzo, 1989 **Bowker's Complete Sourcebook of Personal Computing, 1985** R.R. Bowker Company, 1984 Provides Listings of Hardware Software Peripherals Currently Available as Well as Books Magazines Clubs User Groups Virtually All Other Microcomputer related Services Includes Background Information Glossary *Apple Writer Tutor* Barry Leshowitz, Phyllis Leshowitz, 1985-01-01 Introduces the features of the Apple Writer word processing program
