China's Multilateral Co-operation in Asia and the Pacific Chien-peng Chung, 2010-06-24 Explores the meaning scope and repercussion in the drive that a rising China has for institutionalizing multilateral cooperative processes in the Asia Pacific region the extent to which its actions are motivated by concerns of politics economics or security and the obstacles it faces for so doing

Understanding ASEAN's Role in Asia-Pacific Order Robert Yates, 2019-03-25 This book assesses the important role of the Association of Southeast Asian Nations ASEAN in the management of regional political security and economic relations The author argues that ASEAN's prominent role in the region spanning 50 years is largely due to the acquiescence of the great powers who endorsed ASEAN accepted its regional position and accorded the institution a legitimacy and durability that otherwise it would not have This text offers a key intervention into the debate regarding ASEAN and regional order by showing how ASEAN's contribution to order management is part of a negotiated division of labour with the great powers The author applies an innovative social roles analysis which captures the dynamic interactions between ASEAN and the great powers from the Cold War to the present day

Institutions of the Asia-Pacific Mark Beeson, 2008-08-18 The Asia Pacific is arguably the most important but also the most complex and contested region on the planet Containing three of the world's largest economies and some of its most important strategic relationships the region's capacity of regional elites to promote continuing economic development whilst simultaneously maintaining peace and stability will be one of the defining challenges of the twenty first century international order Intuitively we might expect regional institutions to play a major role in achieving this Yet one of the most widely noted characteristics of the Asia Pacific region has been its relatively modest levels of institutional development thus far However things are changing as individual economies in the Asia Pacific become more deeply integrated there is a growing interest in developing and adding to the institutions that already exist Institutions of the Asia Pacific examines how this region is developing and what role established organisations like APEC and new bodies like ASEAN Plus Three are playing in this process An expert in the field Mark Beeson introduces the contested nature of the very region itself should it be the Asia Pacific or East Asia to which we pay most attention and expect to see most institutional development By placing these developments in historical context he reveals why the very definition of the region remains unsettled and why the political economic and strategic relations of this remarkably diverse region remain fraught and difficult to manage

The ASEAN Regional Security Partnership Angela

Pennisi di Floristella,2015-08-25 ASEAN's role as a security provider remains largely a matter of scholarly debate Through the lens of the concept of regional security partnership this book uncovers a more nuanced understanding of ASEAN capacity highlighting both its merits and fragilities in coping with traditional and emerging security problems International Relations in Southeast Asia Donald E. Weatherbee,2009 This balanced comprehensive guide to Southeast Asian politics offers a sensible but nondogmatic realist approach to the region's international relations In this revised second edition Donald E Weatherbee lucidly explains the dynamics of the Southeast Asian subsystem as a struggle for autonomy in pursuit of national interests He explores three important questions the answers to which will shape the future Southeast Asia Will democratic regimes transform international relations in Southeast Asia Will national leaders succeed in reinventing ASEAN as a more effective collaborative mechanism Finally how will the evolving Chinese position balancing and perhaps displacing the United States as Asia's great power affect Southeast Asia's struggle for autonomy *Asian Security Reassessed* Stephen Hoadley,Jurgen Ruland,2006 This book traces changes in the concept of security in Asia from realist to cooperative comprehensive and human security approaches and assesses a number of policy alternatives to management of both old and new security threats It surveys not only orthodox security threats such as tensions between regional powers or armed ethnic antagonists but also new sources of anxiety such as resource scarcity economic instability irregular migration community fragmentation and international terrorism Security policies of major powers such as China Japan and the United States and the moderating roles of regional organizations such as ASEAN ARF SCO and KEDO are evaluated in historical and contemporary perspectives Contributors proffer policy relevant insights where appropriate The book concludes that traditional security approaches remain valid but need to be adapted to the new challenges and offers suggestions for incorporating fresh Asian security perceptions into the agendas of policy makers analysts and scholars Rivalry And Cooperation In The Asia-Pacific: The Dynamics Of A Region In Transition (In 2 Volumes) Mark Beeson,2019-09-23 Rivalry and Cooperation in the Asia Pacific provides a comprehensive and accessible introduction to the most important strategic and economic region in the world Asia Pacific is a region that is undergoing a major transformation largely as a consequence of the rise of China and its growing rivalry with the United States Whatever happens in the Asia Pacific will profoundly influence global events not just regional ones Looking ahead the region's future direction and even its name is contested and uncertain This two volume reference work by one of the world's leading analysts of regional affairs places these events in historical context and considers what they may mean for future political economic and strategic relations By focusing on the United States China and the region's most significant middle powers the book explains why and how the Asia Pacific has become the fulcrum of international events
