Ashes Under Water The Ss Eastland And The Shipwreck That Shook America:

Ashes Under Water Michael McCarthy, 2014-10-07 The untold story of the worst disaster on the Great Lakes in U S History On July 24th 1915 Chicago commuters were horrified as they watched the SS Eastland a tourism boat taking passengers across Lake Michigan flip over while tied to the dock and drown 835 passengers including 21 entire families Rockefeller Morgan and Carnegie had bought into the ship business in the Midwest creating a boom market and a demand for ships that were bigger longer faster The pressure filled and greedy climate that resulted would be directly responsible for the Eastland disaster and others As dramatic as the disaster was the subsequent trial was even more so The public demanded justice When the immigrant engineer who was being scapegoated for the accident was left out to dry by the ship s owners penniless and down on his luck Clarence Darrow decided to take his case The defense he mounted which he was too ashamed to even mention in his memoirs would be even more shocking *The Eastland Water Spirits* Claude Walker, 2015-07-21 July 24 1915 Chicagos deadliest day far worse than the Great Fire The SS Eastland a poorly designed overcrowded lake steamer capsized without warning in the heart of downtown Chicago killing 844 people preparing for a company picnic The victims mostly young immigrants who toiled long hours in Western Electrics Hawthorne Works and the disaster itself were largely forgotten to the mists of time But on the 100th anniversary of the tragedy a quake strikes below Chicago a purple flash emanates from a mystery hole in the Chicago River and an inexplicable hazmat event strikes a Chinatown diner Thus begins Chicagos shocking reintroduction to the horror of July 24 1915 and a commemoration of the victims *The Eastland Water Spirits* is a parable about memories and stories which refuse to disappear It explores our ancestors impact on each of us like it or not It celebrates our connectedness over time and space using water and spirits to tell the tale *Capsized!* Patricia Sutton, 2018-07-01 New York Public Library s 100 Best Books for Kids Kirkus Reviews Best Books of 2018 2019 Society of Midland Authors Literary Award Honoree 2019 Notable Social Studies Trade Books for Young People List 2019 Cybils Literary Award Winner A 2019 Cooperative Children s Book Center s Choice Wisconsin Writers Contest 2018 Winner of the Tofte Wright Children s Literary Award On July 24 1915 the SS Eastland filled to capacity with 2 500 passengers and crew capsized in the Chicago River while still moored to the pier Happy picnic goers headed for an employee outing across Lake Michigan suddenly found themselves in a struggle for their lives Trapped belowdecks crushed by the crowds attempting to escape the rising waters or hurled into the river from the upper deck of the ship roughly one third of the passengers mostly women and children perished that day The Eastland disaster took more passenger lives than the Titanic and stands today as the greatest loss of life on the Great Lakes *Capsized* details the events leading up to the fateful day and provides a nail biting minute by minute account of the ship s capsizing From the courage of the survivors to the despair of families who lost loved ones author Patricia Sutton brings to light the stories of ordinary working people enduring the unthinkable *Capsized* also raises critical thinking questions for young readers Why do we know so much about the Titanic s sinking yet so little about

the Eastland disaster What causes a tragedy to be forgotten and left out of society's collective memory And what lessons from this disaster might we be able to apply today

Financial Market Design by an Agent-Based Model Takanobu Mizuta, Isao Yagi, 2025-02-10 This is the first book to focus on designing a financial market that works well and that includes making and or modulating detailed regulations and or rules by a computer simulation of an agent based artificial financial market model ABAFMM The design of a financial market is very important for the development and maintenance of an advanced economy but designing it is not easy because changes in detailed rules even those that seem trivial sometimes have unexpectedly large impacts and side effects in a financial market which is a complex system Traditional economics cannot treat a financial market as a complex system in which micro macro interaction and feedback loops have played essential roles because traditional economics can only treat macrophenomena and micro processes separately ABAFMM can do it however This book explains first why ABAFMMs are needed to design financial markets and which models have good features Following that explanation the book discusses how to build the models Then cases of recent studies and their contributions are shown and finally the difficulties of researchers in this field are considered This book is expected to facilitate the design of more ABAFMMs to contribute to creating financial markets that will further develop and maintain advanced economies
