Assault From The Sky U S Marine Corps Helicopter Operations In Vietnam:

Assault from the Sky Dick Camp, 2013-08-26 Action packed he brings the reader artfully through the fog of war with clarity 20th Century Aviation Magazine Vietnam has often been called our first helicopter war and indeed the US Marine Corps as well as Army had to feel its way forward during the initial combats But by 1967 the combat was raging across South Vietnam with confrontational battles against the NVA on a scale comparable to the great campaigns of WWII In 1968 when the Communists launched their mammoth counteroffensive the Marines were forced to fight on all sides with the helicopter giving them the additional dimension that proved decisive in repelling the enemy The author of this book a Vietnam veteran and Purple Heart recipient who has also worked at the USMC History Division and National Museum of the Marine Corps in Quantico uses his experiences as a company commander to bring the story to life by weaving personal accounts after action reports and official documents into a compellingly readable narrative of service and sacrifice by Marine pilots and crewmen The entire story of the war is depicted through the prism of Marine helicopter operations from the first deployments to support the Army of the Republic of Vietnam against the Viet Cong through the rapid US buildup to stop the North Vietnamese Army until the final withdrawal from our Embassy Superlative research Leatherneck [Assault from the Sky](#) Richard D. M Foster, 2012-08-20 Artillery fire support bases of the Freeworld forces played a critical role in the conduct of operations during the Vietnam War They served to lay down high volume fire on enemy firing sites supported friendly infantry operations and executed harassing fire missions where exact targets were not known But the firebases themselves which housed a range of other facilities such as troop shelters surveillance radars and command centers had to be defended against ground attack and as a result became significant fortifications in their own right This book describes the design development

and operational history of the fire support bases throughout the conflict Dreadful Lady over the Mekong Delta Bob Howe, 2023-04-19 Dreadful Lady over the Mekong Delta looks at the men of No 2 Squadron and the operations they flew in the Vietnam War in their Canberra bombers From April 1967 the squadron spent four years attacking enemy targets many of them in the Mekong Delta region and contending with the politics weather and fog of war The riverine operations supported by No 2 Squadron were but a small part of an allied effort to disrupt the enemy's movement of troops and supplies to locations in South Vietnam It was according to one commentator a kind of guerrilla warfare conducted in a navy environment Bob Howe arrived in Vietnam in 1969 as a youthful Canberra navigator bomb aimer but much of his time was spent as a specialist in bombing operations His time there provided him with the firsthand experience and detailed information to write this book This book in its original format was first published in 2016 by the RAAF's Air Power Development Centre filling a gap in the recording of the RAAF's operations in Vietnam It also describes how crews overcame the difficulties of operating in an intense Asian war in an aircraft that was designed for a completely different environment This new edition is intended to bring the experiences and exploits of Bob Howe No 2 Squadron and its Canberra bomber aircraft to life for a new generation of reader **Three War Marine Hero** Richard Camp, 2020-11-20 The first biography of the Marine general who was decorated for bravery in both WWII and Korea and went on to serve as a commanding general in Vietnam Ray Davis was a hardened combat veteran This was brought home to me one day while visiting a remote Army firebase in the jungle south of Khe Sanh As the two of us strode along the jungle pathway Davis suddenly stopped and peered intently into the thick green foliage I suspected danger brought my rifle up and slipped off the safety After a few moments the general turned and casually remarked Dick this reminds me of a command post I had on Guadalcanal I mumbled Yes sir and surreptitiously fingered the safety to the on position Christ I thought in awe I was only two years old at the time of Guadalcanal This is the old man's third war Dick Camp from the introduction A native of Georgia Raymond Davis joined the Marine Corps after university and would go on to serve in three wars and be decorated for gallantry several times including the Medal of Honor for his actions at Chosin where his leadership saved countless American lives He retired as a four star general after 33 years in the corps Dick Camp Marine veteran and historian weaves memoirs first hand accounts and his own personal memories of General Davis in this first biography of this archetypal Old Breed Marine Camp writes an awe inspiring book of a humble and unsung Marine war hero a national treasure who gave his absolute all in the service to his country the Marine Corps and his Marines These facts come across clearly in substantive depth throughout the book It is historically accurate and crafted in such a way that unmistakably brings Davis's heroics to light and life for the reader Military Review A good book told by a competent author it's well researched and written If you're a Jarhead it's a must read The VVA Veteran A well crafted biography of an important Marine commander It illustrates well through Davis career the Marine Corps of the mid Twentieth century Paul Westermeyer Historian **Air Mobility** Christop C. period Army aviation began to evolve from an observatory role to a mobility role Helicopter air mobility began to develop in the Army from 1949 onwards The outbreak of the Korean war assisted and accelerated the acceptance of greater helicopter air mobility within the Army The Eisenhower period was a golden age for Army aviation with rapid and extensive developments in air mobility doctrine and tactics There was also a strong research and development effort to overcome the initial technological lag These developments allowed the formation of the first air mobile division in 1965 to meet the growing demands of the Vietnam war This work gives a new understanding of the process of military innovation Moreover this case study has important general implications for future military policy making
