Assets And The Poor New American Welfare Policy:

Assets and the Poor Michael Sherraden, 2016-09-16 This work proposes a new approach to welfare a social policy that goes beyond simple income maintenance to foster individual initiative and self sufficiency It argues for an asset based policy that would create a system of saving incentives through individual development accounts IDAs for specific purposes such as college education homeownership self employment and retirement security In this way low income Americans could gain the same opportunities that middle and upper income citizens have to plan ahead set aside savings and invest in a more secure future

Asset Building and Low Income Families Signe-Mary McKernan, 2008-10-15 Low income families have scant savings to cushion a job loss or illness and can find economic mobility impossible without funds to invest in education homes or businesses And though a lack of resources leaves such families vulnerable income support programs are often closed to those with a bit of savings or even a car Considering welfare to work reforms the increasingly advanced skill demands of the American workforce and our stretched Social Security system such an approach is inadequate to lift families out of poverty Asset based policies allowing or even helping low income families build wealth are an increasingly popular strategy to facilitate financial stability

Asset-Building Policies and Innovations in Asia Michael Sherraden, Li Zou, Ben Hok-bun Ku, Suo Deng, Sibin Wang, 2014-11-20 Asia has long been a testing ground for efforts to augment financial and social security by developing assets that may support individuals and households and contribute to long term social development Rapid growth in the number and breadth of asset based social policies has prompted Asian scholars practitioners and policymakers to share lessons from current efforts and chart future directions This book offers a unique collection of macro and micro level analyses on asset based social development and compares and contrasts national social policies across the Asia Pacific region Many asset building policies and programmes have been undertaken in Asia and innovative proposals continue to emerge The contributions in this book present and assess this broad often nuanced and evolving landscape and offer an insightful analysis of the evolution of asset building policies innovative programmes in rural populations asset based interventions to facilitate the development and well being of children as well as case studies on new ground breaking asset building projects Asset Building Policies and Innovation in Asia will be an invaluable resource for students and scholars of Asian social policy social welfare social development and social work

Chiteji, 2010-03-23 Congratulations to Drs Nembhard and Chiteji and the authors included in this much needed volume of work Their book offers the perspective and insight of scholars of color that are too often missing from information produced by the asset building field people and organizations seeking to help low income people develop assets Communities served by the asset building field are disproportionately made up of people of color This book captures work produced by scholars representing these communities and offers innovative and thought provoking analyses of wealth inequality Decision making on research policy and practice that fails to incorporate the knowledge of

Katz, 2013-09-30 The Undeserving Poor is a history of the ideas that underlie America's enduring confrontation with poverty The book shows that poverty remains a national disgrace in part because of the way we define and think about it which in turn shapes the energy we put or don't put into its eradication *Selected Issues Relating to the AFDC and the JOBS Programs* United States. Integrating the Inner City Robert J. Chaskin,Mark L. Joseph,2015-11-13 For many years Chicago s looming large scale housing projects defined the city and their demolition and redevelopment via the Chicago Housing Authority s Plan for Transformation has been perhaps the most startling change in the city s urban landscape in the last twenty years The Plan which reflects a broader policy effort to remake public housing in cities across the country seeks to deconcentrate poverty by transforming high poverty public housing complexes into mixed income developments and thereby integrating once isolated public housing residents into the social and economic fabric of the city But is the Plan an ambitious example of urban

regeneration or a not so veiled effort at gentrification In the most thorough examination of mixed income public housing redevelopment to date Robert J Chaskin and Mark L Joseph draw on five years of field research in depth interviews and volumes of data to demonstrate that while considerable progress has been made in transforming the complexes physically the integrationist goals of the policy have not been met They provide a highly textured investigation into what it takes to design finance build and populate a mixed income development and they illuminate the many challenges and limitations of the policy as a solution to urban poverty Timely and relevant Chaskin and Joseph s findings raise concerns about the increased privatization of housing for the poor while providing a wide range of recommendations for a better way forward
