Bipolar in Barbados A Memoir of My First Manic Episode is a personal recollection of the events leading up to an unknown illness which was later identified as Bipolar Type 1 Something happened to me over the last few months something I can't explain I don't even know when exactly it happened But the maddening question is why it happened why it happened to me Why do I only sleep 5 hrs at night Why when I wake up is my mind racing Why am I compelled to write it down and share it Why would I do this knowing that it will piss people off knowing that others will see this as me trying to get attention or seek some unknown ulterior motive How long will this last Will I ever go back to plain old boring fading into the background me I had an experience something that changed me forever and all I've been trying to do is to share that with those closest to me All you've heard about is all the happy go lucky stuff and the pictures I send are all of good times friends having fun everyone smiling What you don't see is me waking up in a basement all alone wondering why this is all happening Sitting at a computer screen at 5am typing away till my fingers hurt not knowing why hoping and praying for answers so that this would all make sense I've never been so scared in my entire life When I look in the mirror the face that looks back seem familiar but something about it is different There's something in the eyes that's changed Is it a holy fire The fires of hell Or something more tangible and real the struggles of one on the brink of insanity I don't know and that's what scares the hell outta me that basic innate human fear of the unknown I was only hoping that my friends and family would be able to comfort me guide me do anything so I didn't feel so lost confused and lonely
